

HATFIELDS COLOURING BOOK

THANK YOU FOR YOUR CUSTOM. ENJOY OUR CARS IN FINE DETAIL.

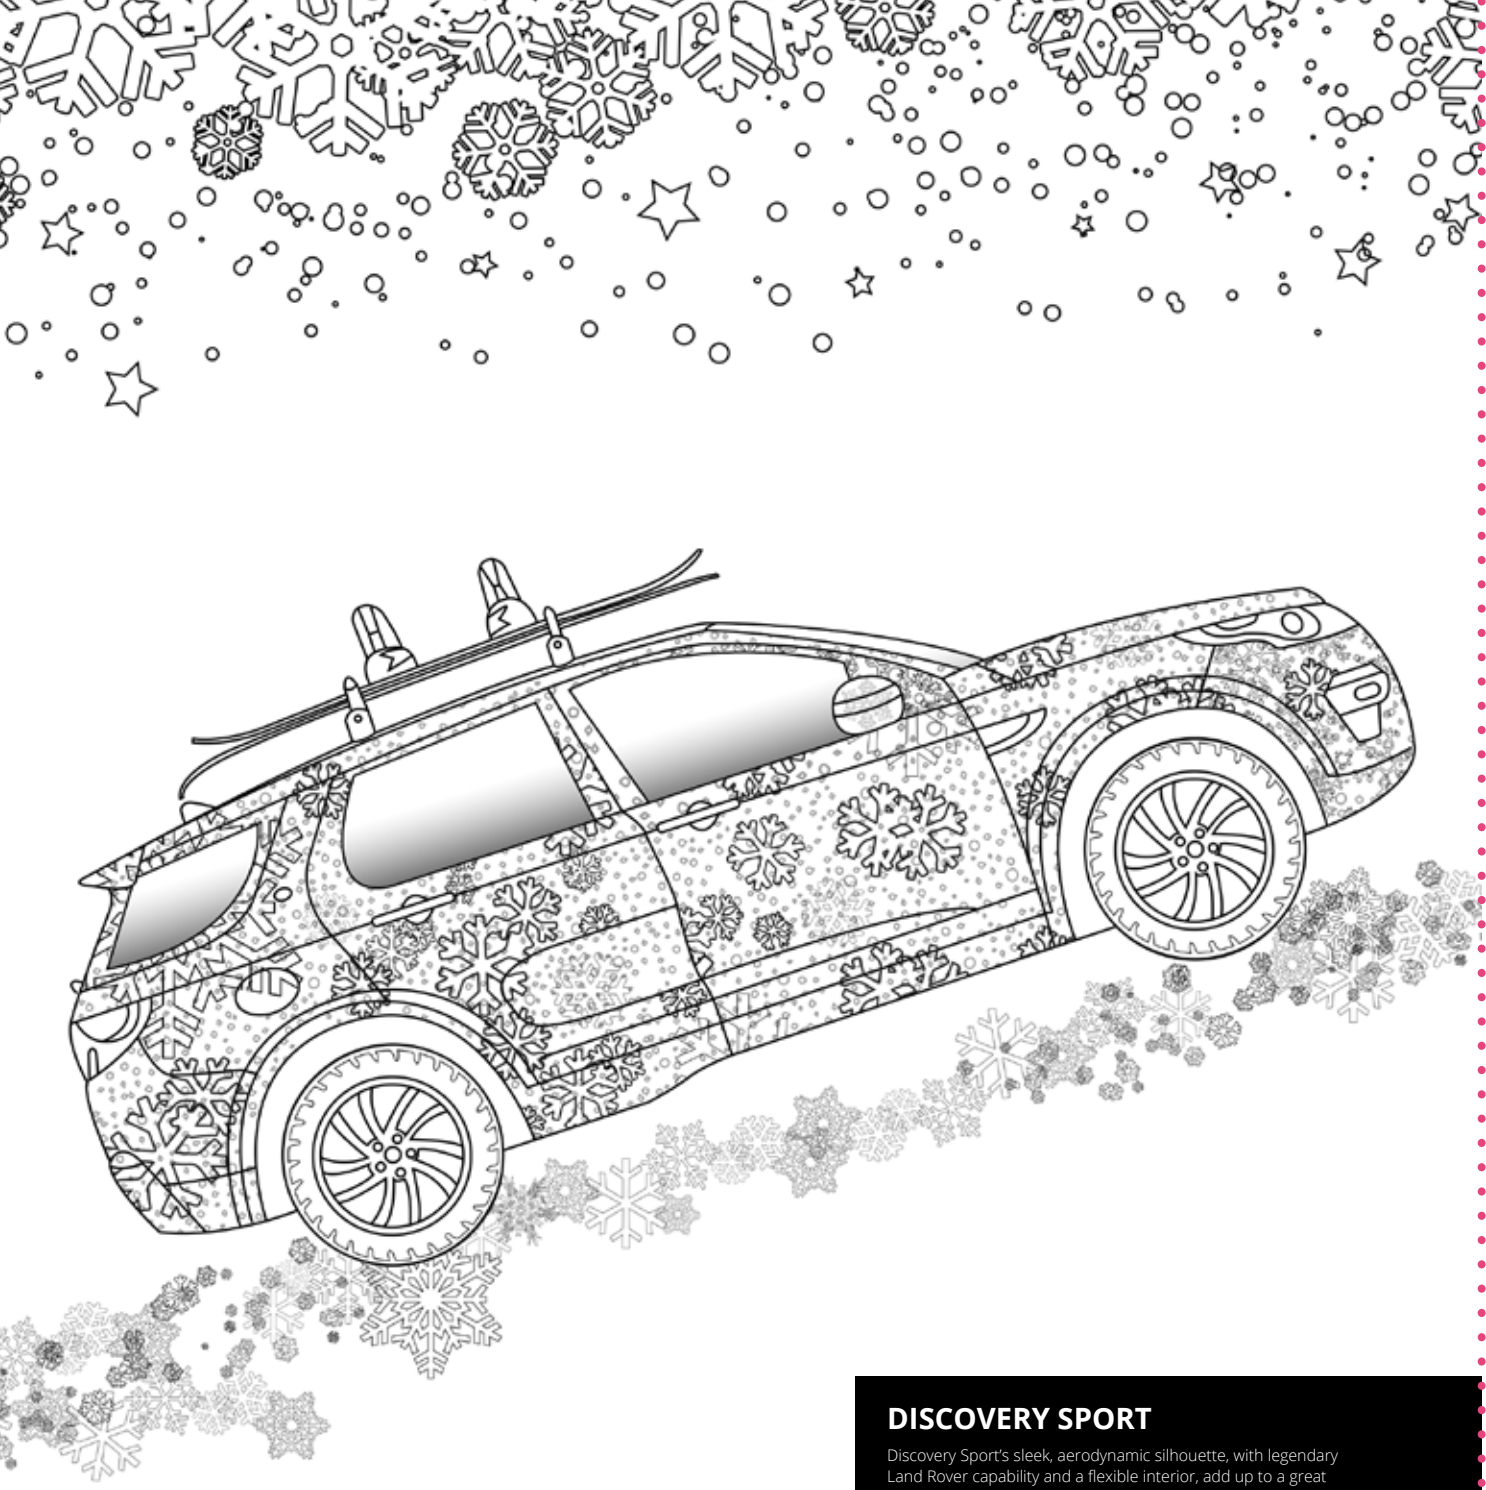

Hatfields

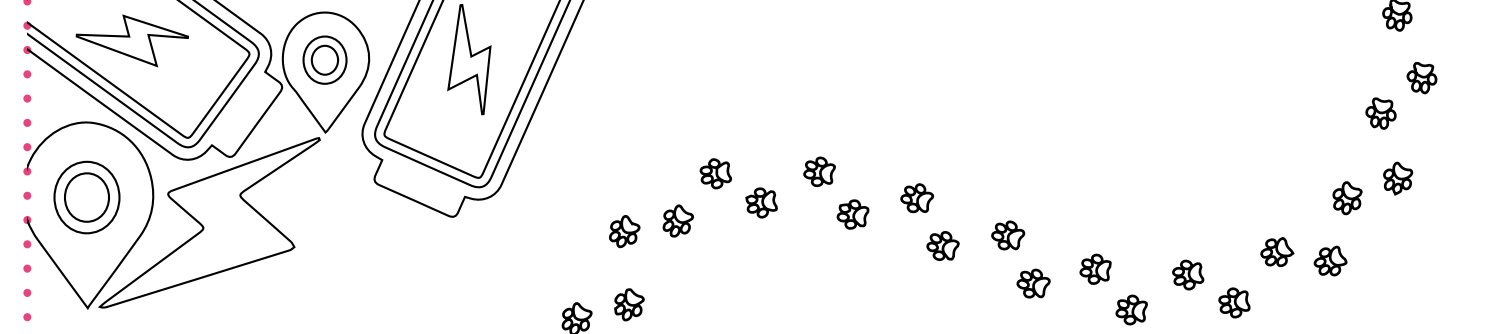

DEFENDER

An icon for over 68 years. All-terrain right from the start, Land Rover Defender rapidly became one of the world's most recognisable four-wheel drive vehicles. Enduring and capable, it is a legend on seven continents for challenging expeditions and humanitarian support.

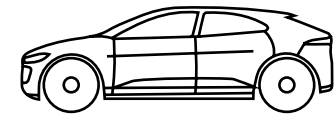

DISCOVERY SPORT

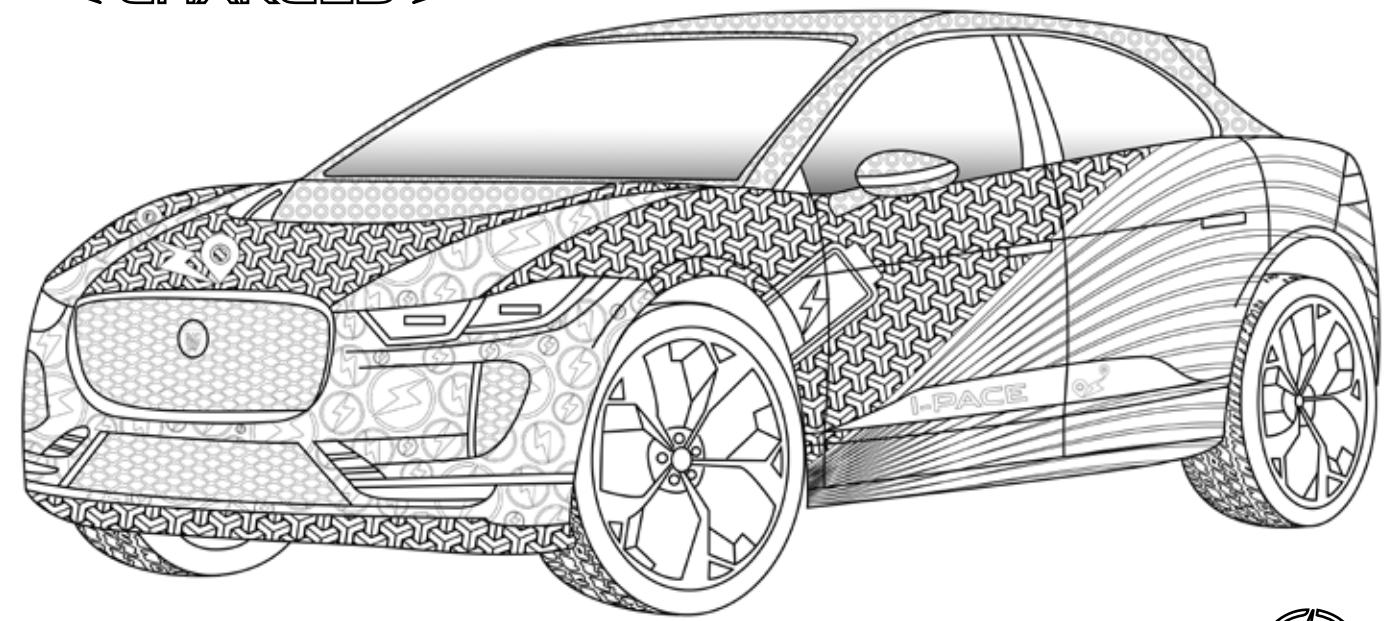

Discovery Sport's sleek, aerodynamic silhouette, with legendary Land Rover capability and a flexible interior, add up to a great looking vehicle that does so much more. With a sliding second row that can offer similar legroom to a Range Rover, and a third row, you can adapt the space to meet loading or seating needs.

I-PACE CONCEPT

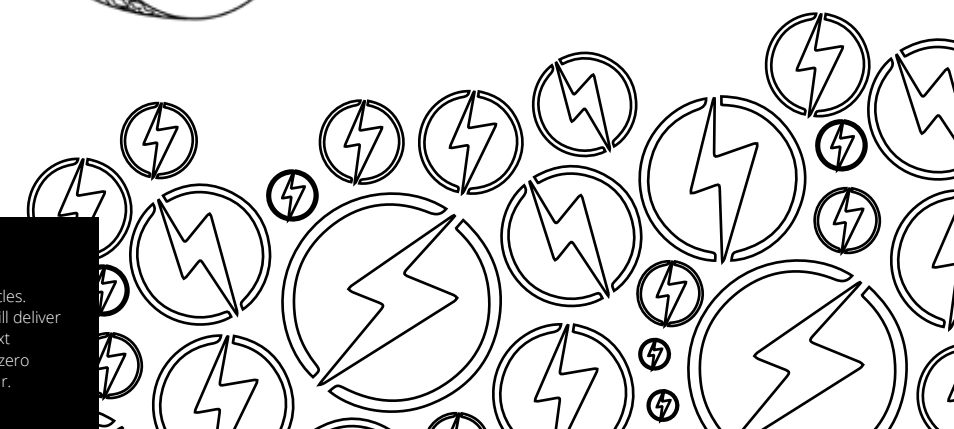

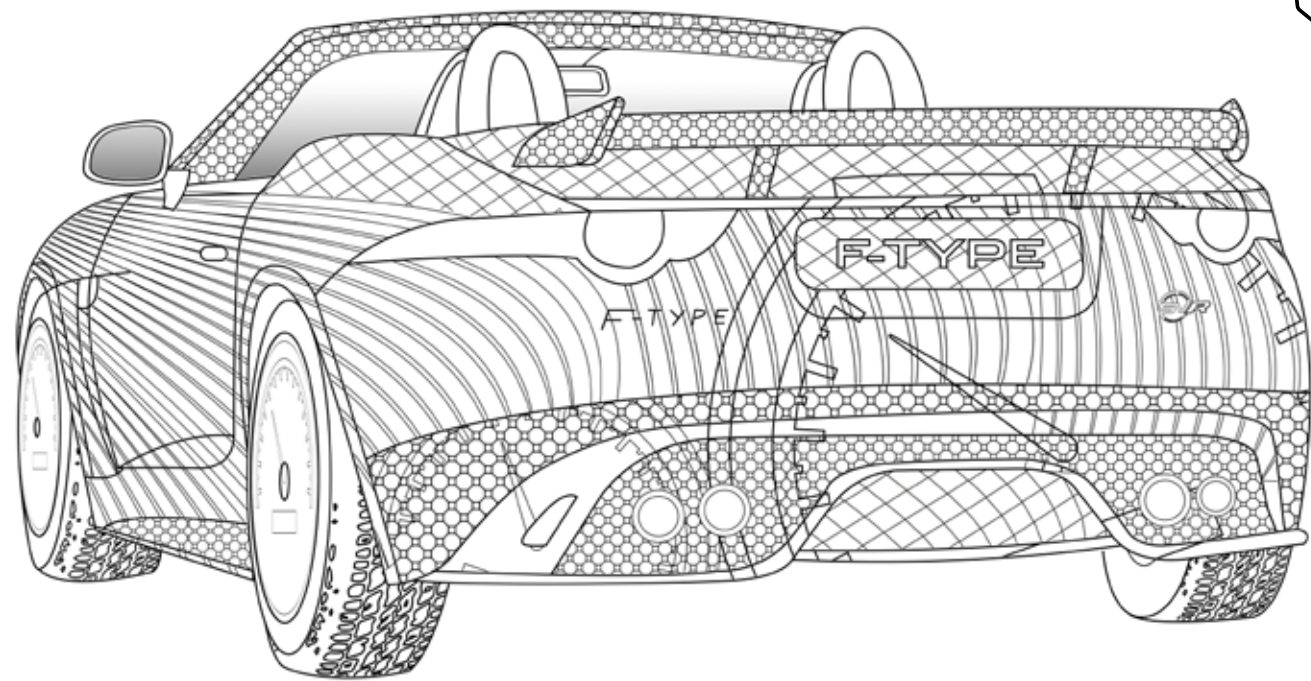

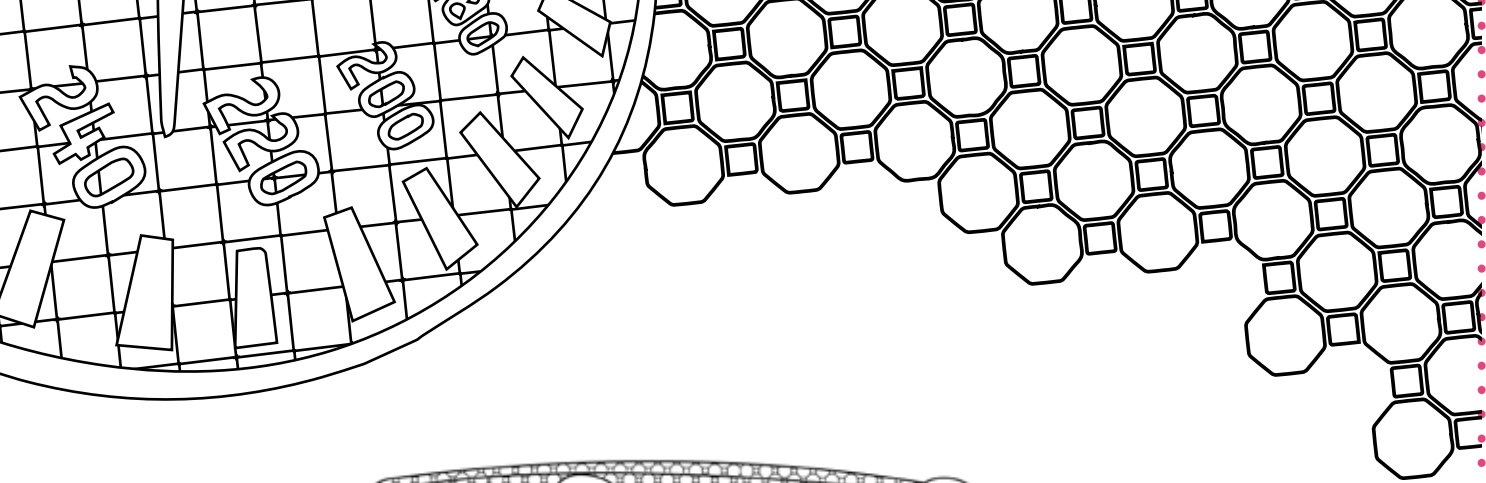

⚡ CHARGED ⚡

I-PACE

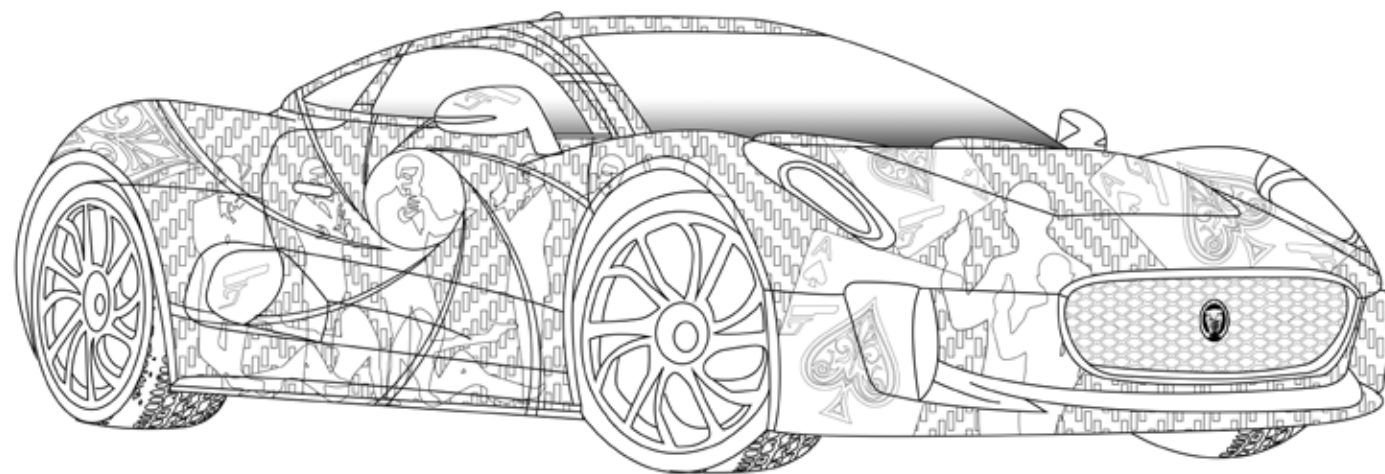

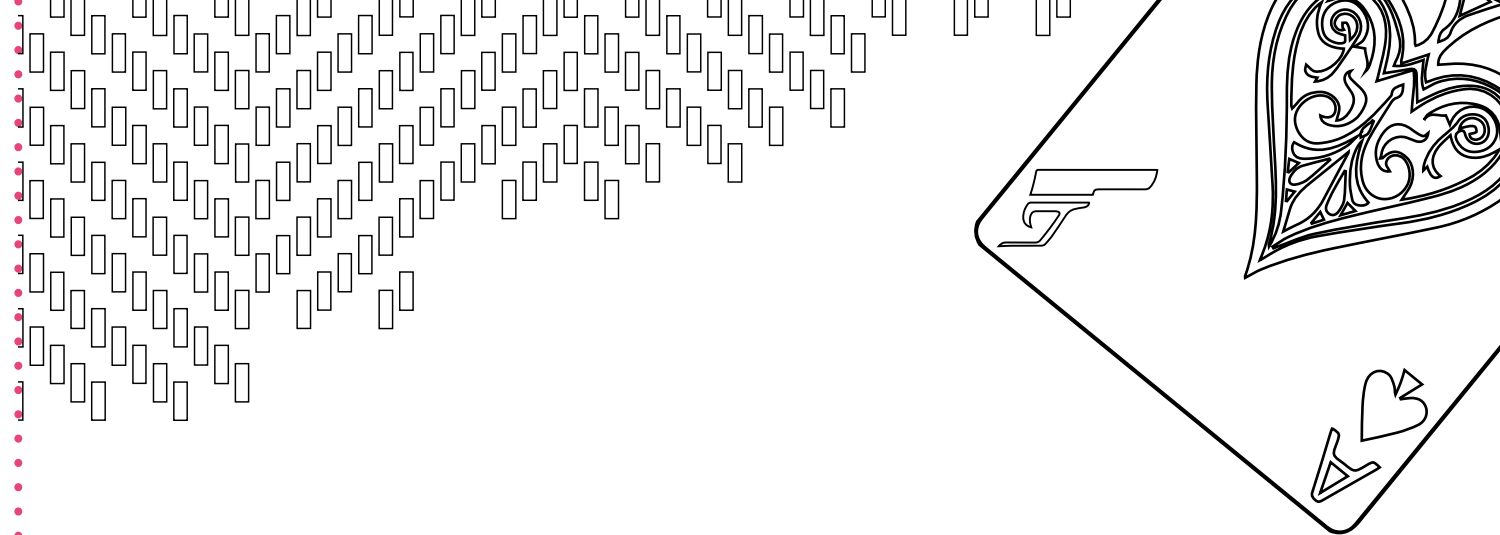

I-PACE Concept will bring thrilling Jaguar performance to electric vehicles. Available from the second half of 2018, Jaguar's first electric vehicle will deliver 700Nm instant torque, 400PS and 0-60mph in around 4 seconds. Next generation technology and future-facing design combine to deliver a zero vehicle emissions driving experience that remains unmistakably Jaguar.

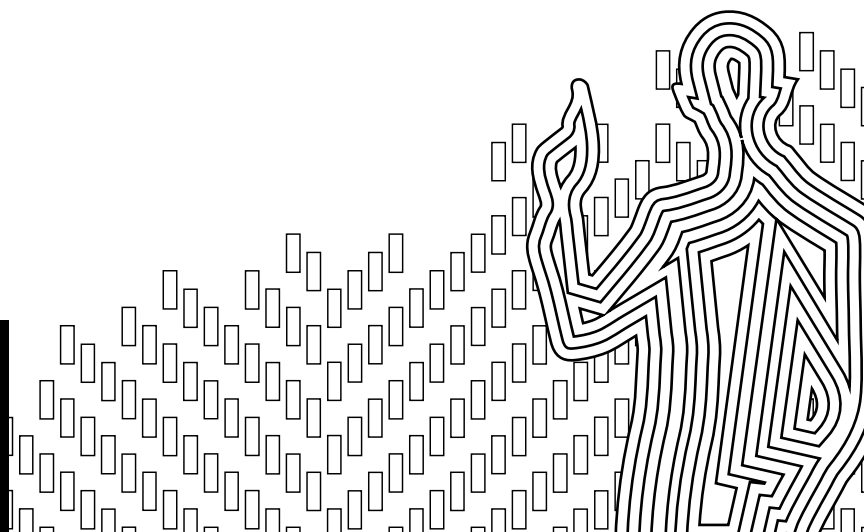

F-TYPE SVR CONVERTIBLE

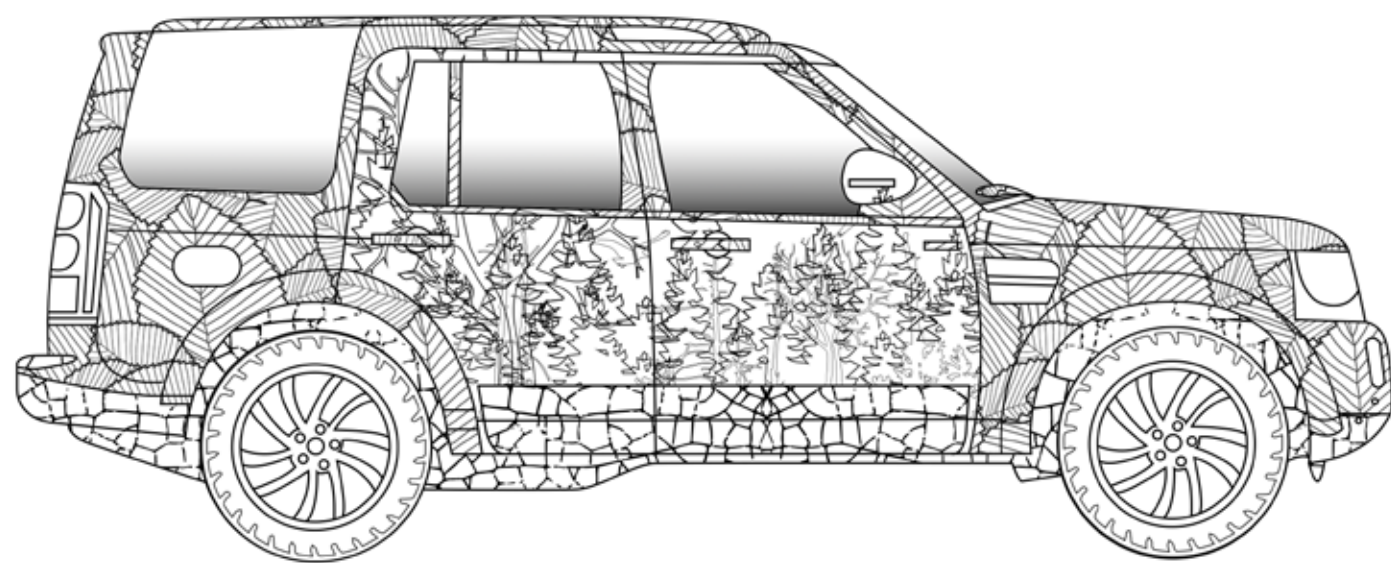

From the choice of lightweight, innovative materials to its advanced aerodynamic design, SVR is our most powerful F-TYPE yet. The 5.0 litre V8 unit's twin vortex supercharger eliminates drag and surge for responsive performance at all engine speeds. Hold tight – it will take you from 0-60mph in 3.5 seconds and on to a top speed of 200mph.

C-X75 (AS FEATURED IN THE JAMES BOND FILM "SPECTRE")

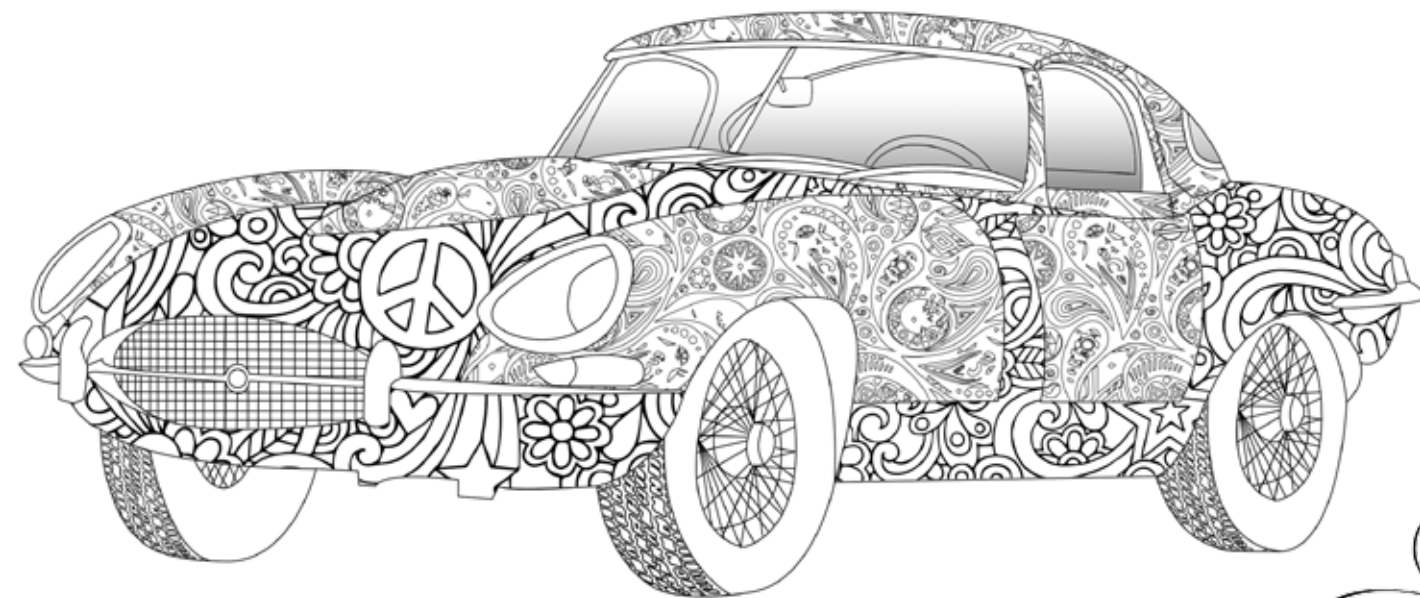

Created to celebrate 75 years of Jaguar. The C-X75 has a combined power output in excess of 850bhp and 1000Nm of torque, thanks to its state-of-the-art, Formula 1-inspired, 1.6-litre dual-boosted (turbocharged and supercharged) four-cylinder powerplant which generates 502bhp at 10,000rpm. Allied with its four electric motors, it generates a further 390 horsepower.

DISCOVERY

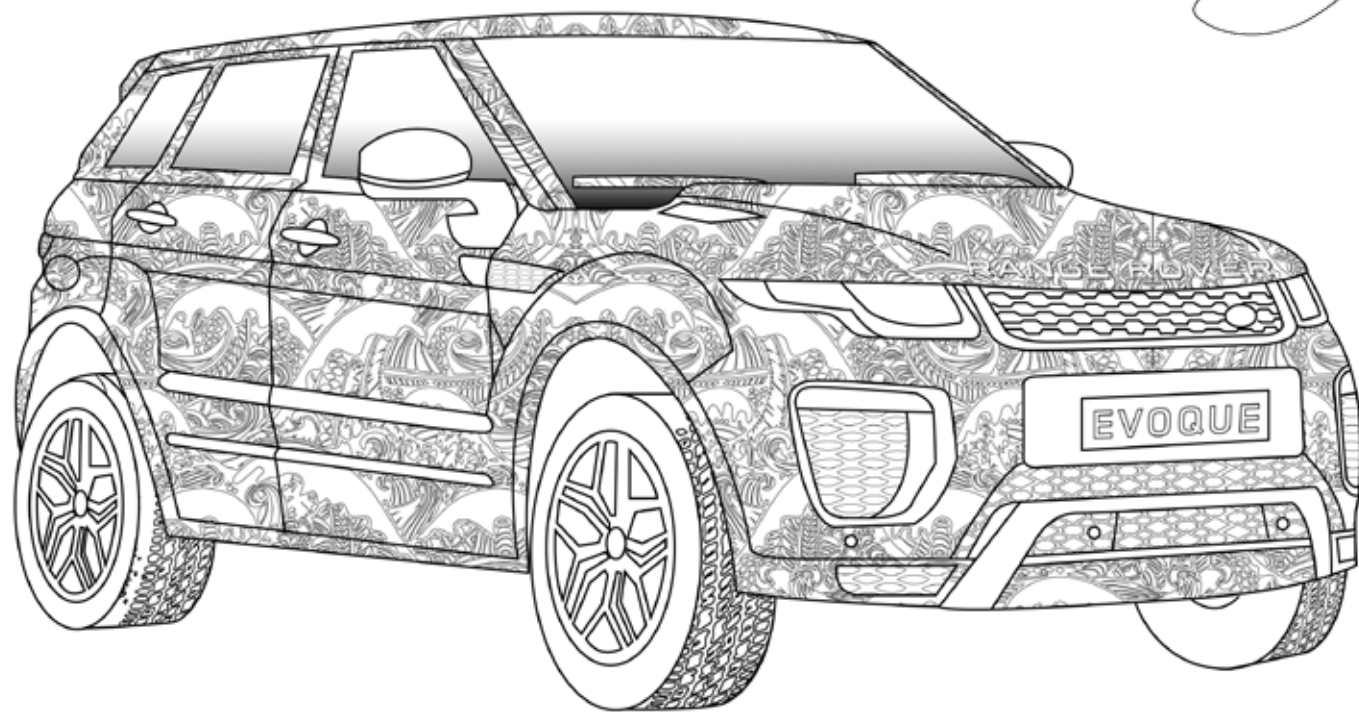

At the touch of a switch, Terrain Response reconfigures Discovery's engine, transmission, throttle and traction settings for optimal driveability. So whether travelling over tarmac, grass, gravel or snow, mud and ruts, sand or rocks, the vehicle takes to it with consummate ease.

E-TYPE

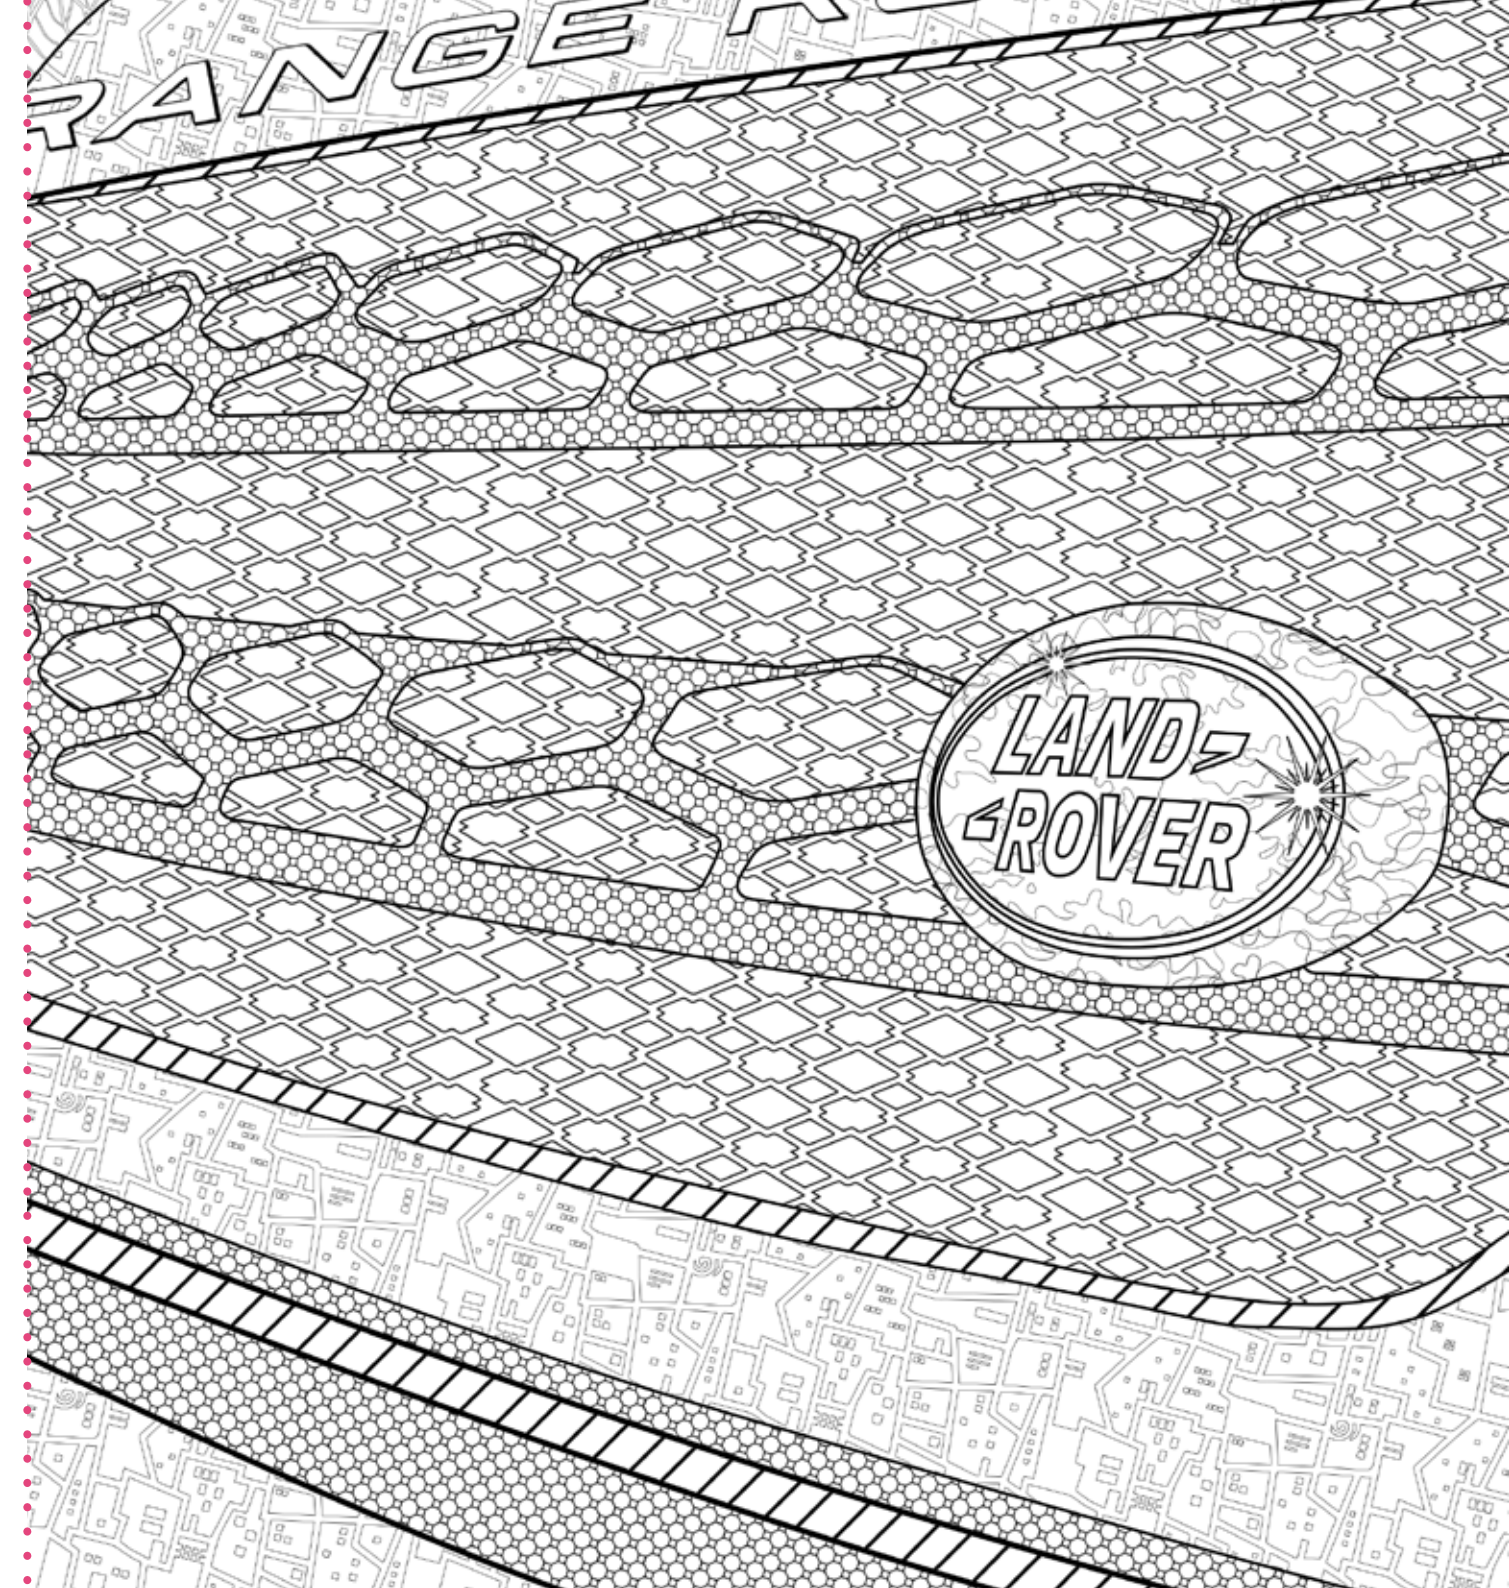

The E-TYPE's straight-six engine had powered Jaguar to five Le Mans victories in the 1950s. By 1961, in 3.8-litre form, it produced 265bhp and 260lb ft of torque, making the car a genuine 150mph proposition and, like its XK120 predecessor, the fastest production car in the world.

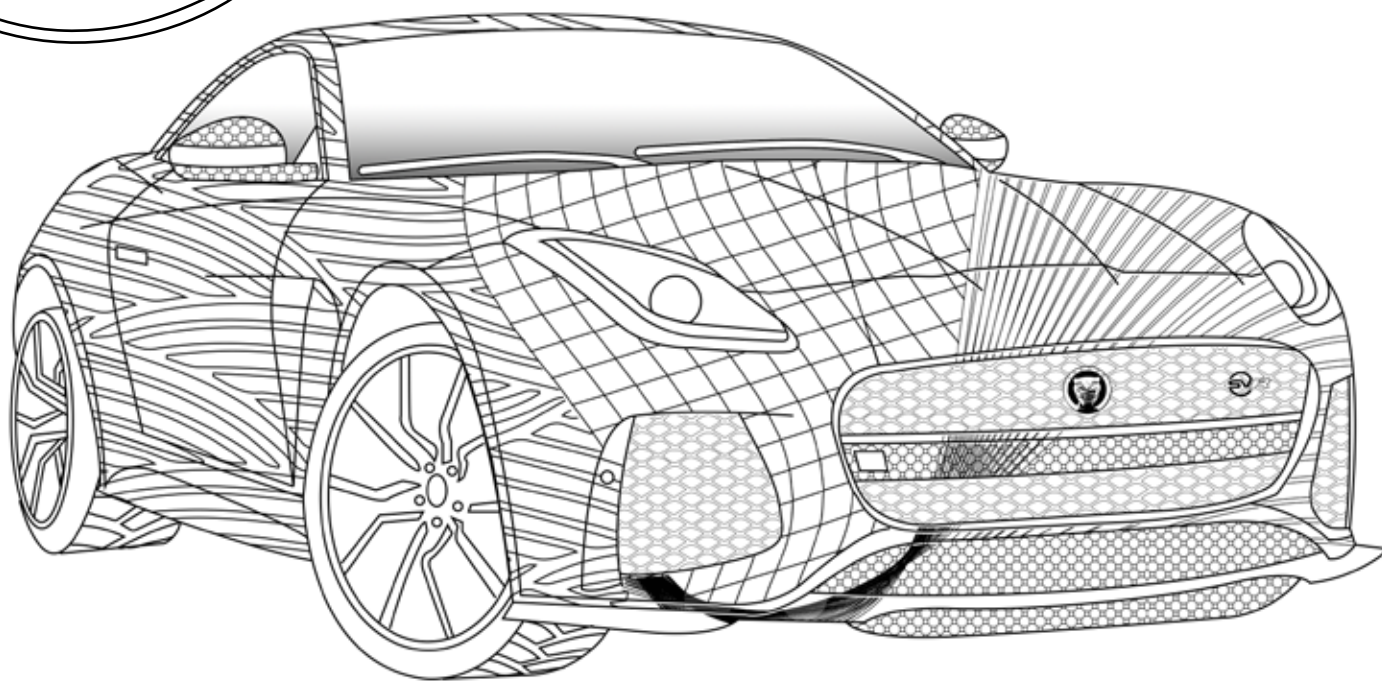

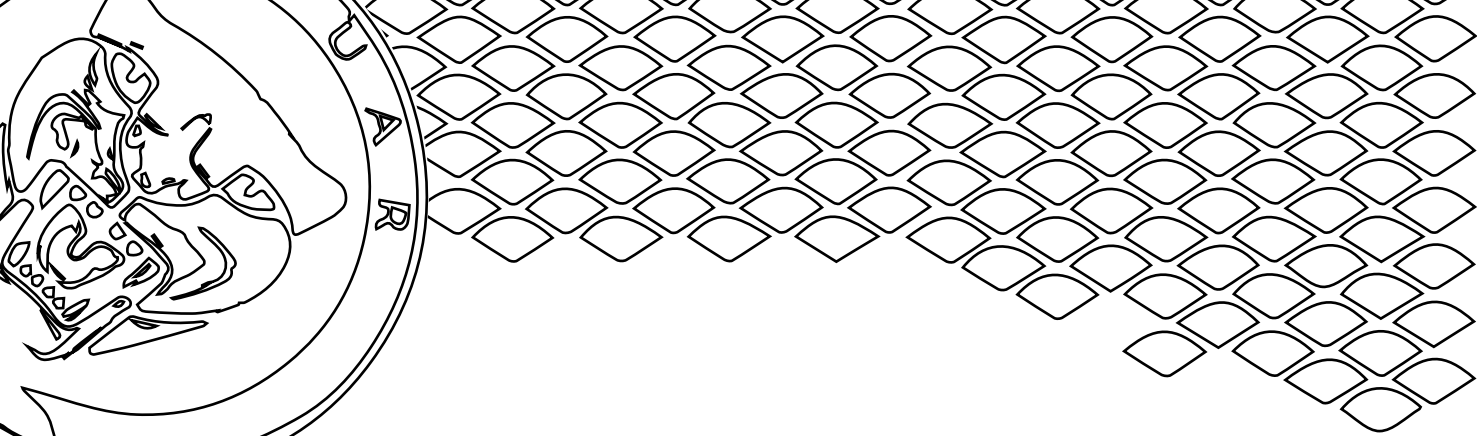

EVOQUE

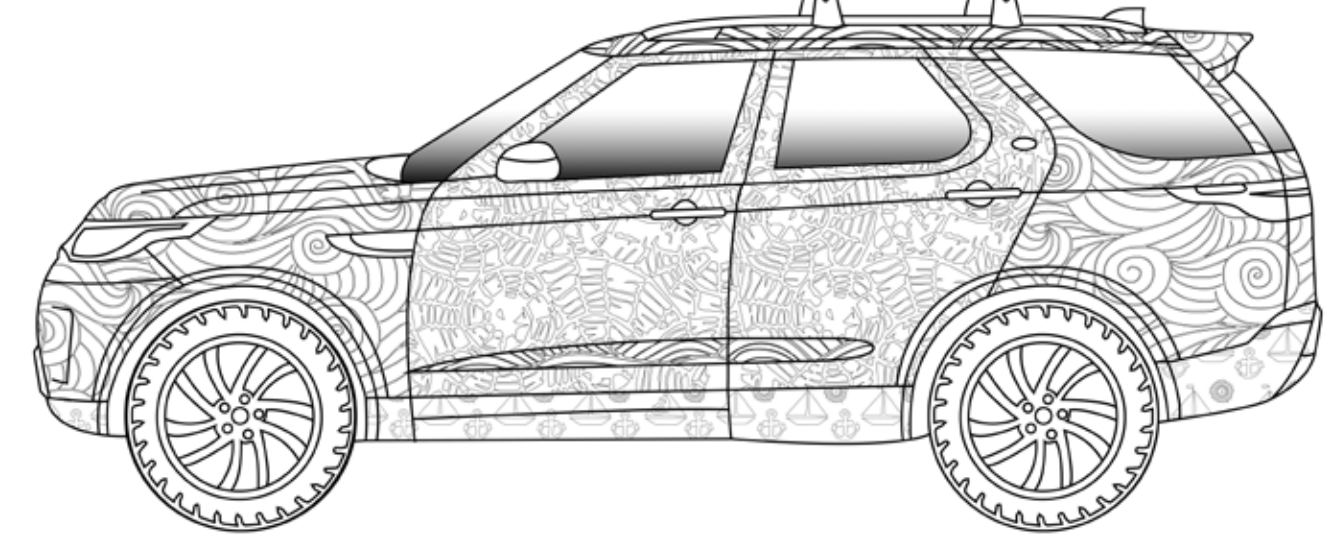

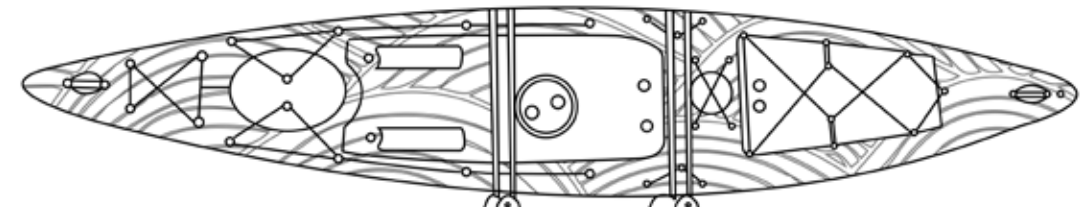

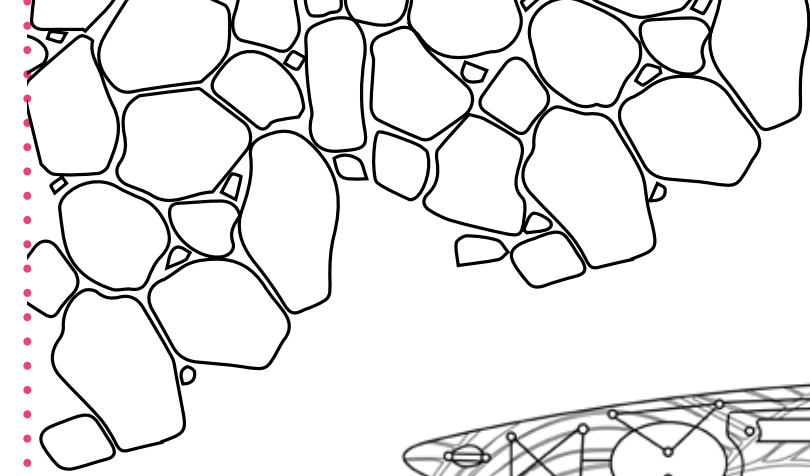

With over 170 international awards, the Range Rover Evoque is available in Coupé, Five-door and Convertible body styles. Whether taking family or friends around town or heading off to some quiet spot in the countryside for lunch, the vehicle's comfortable seating ensures that all arrive feeling relaxed and ready to go.

F-TYPE SVR

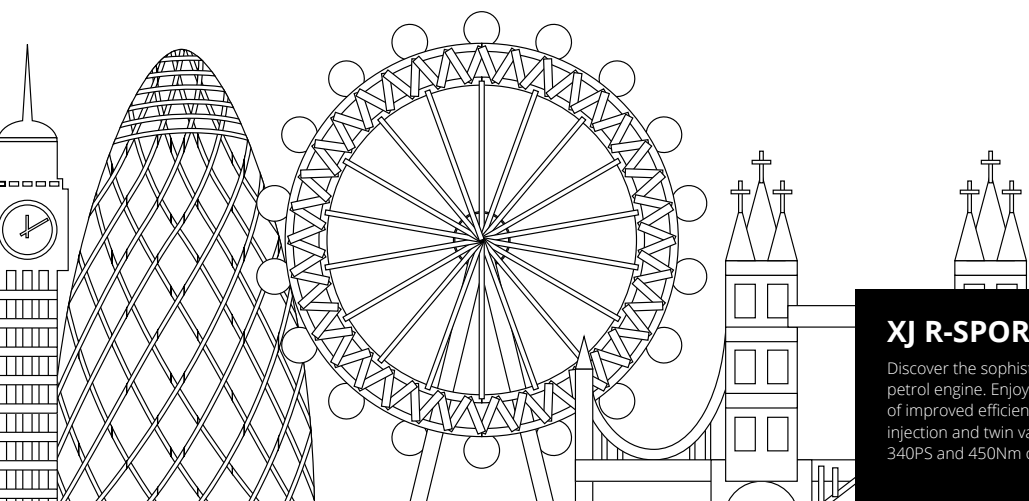

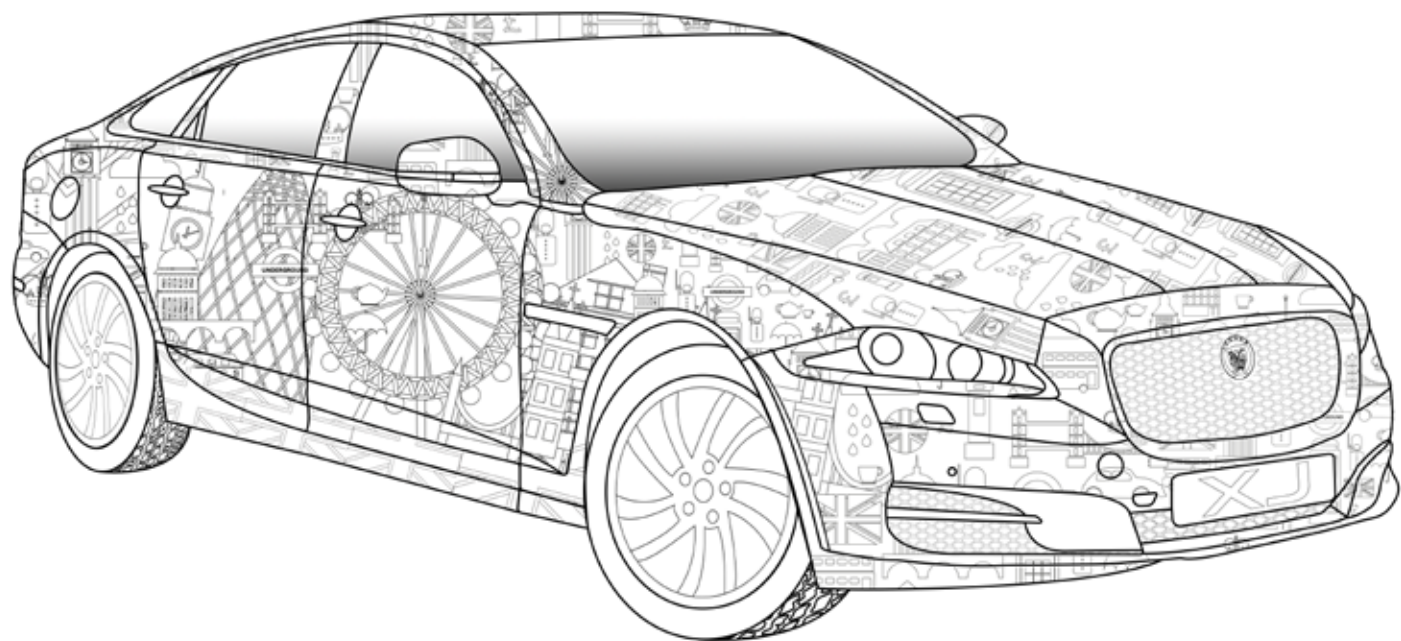

SVR's 5.0 litre V8 engine is the pinnacle of power, recalibrated to deliver up to an astonishing 575PS and 700Nm of torque. The Intelligent Driveline Dynamics system works together with the Electronic Active Differential helping to increase traction and stability. Giving full rein to SVR's towering performance.

ALL-NEW DISCOVERY

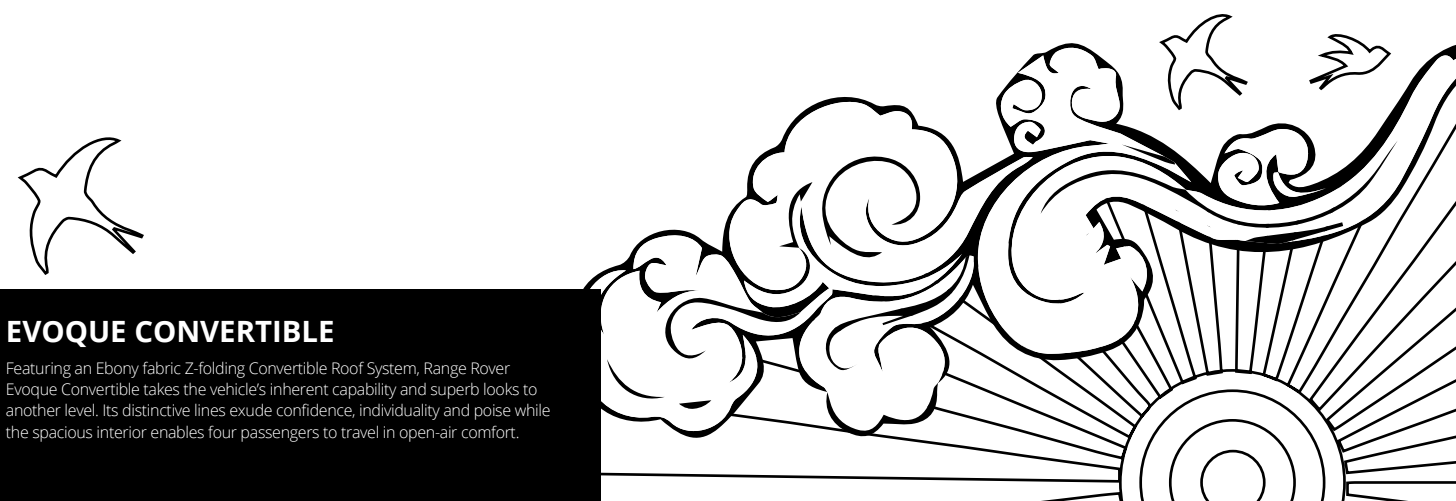

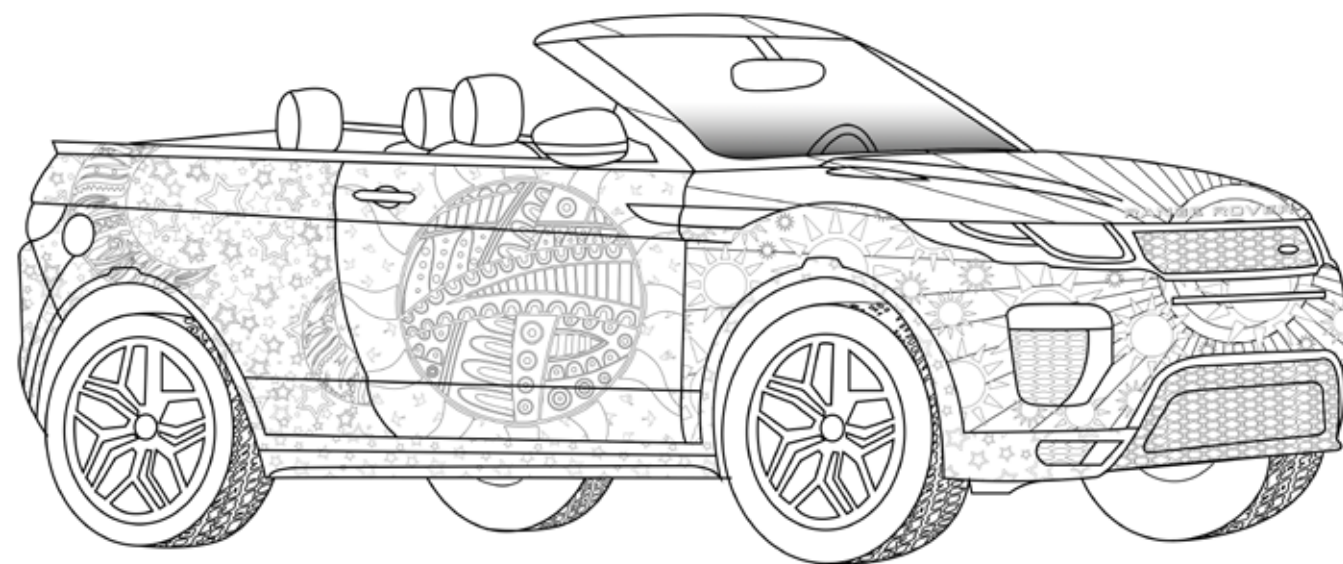

All-New Land Rover Discovery not only looks truly at home in the city, but also drives impeccably off-road. It takes towing capability to a new level, with a capacity of up to 3,500kg and a suite of features available to help make towing effortless and assured.

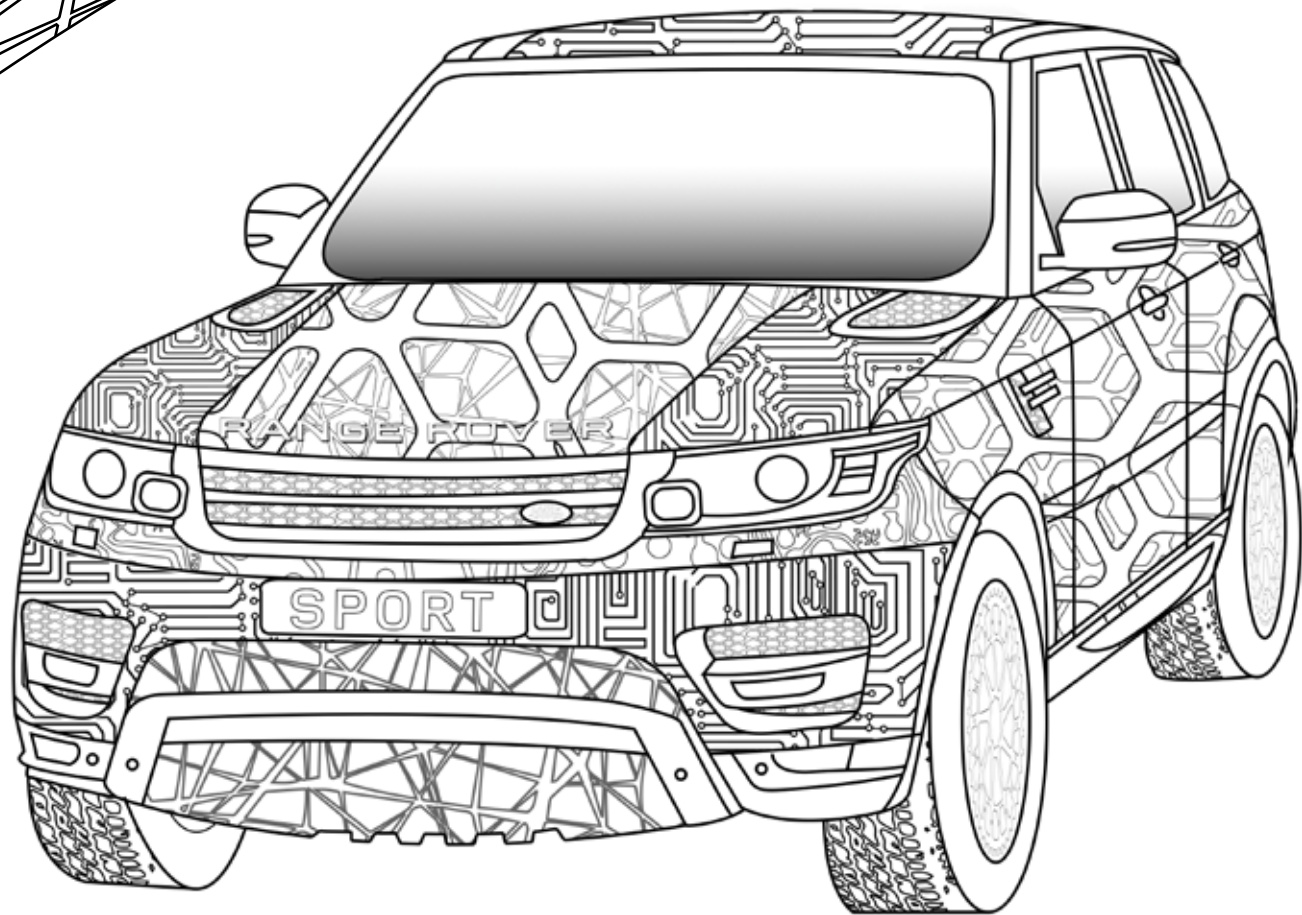

XJ R-SPORT

Discover the sophisticated architecture of Jaguar's V6 Supercharged petrol engine. Enjoy enhanced power and performance with a range of improved efficiency, fuel and induction technologies including direct injection and twin variable camshaft timing. With power reaching 340PS and 450Nm of torque, it achieves 0-60mph in 5.7 seconds.

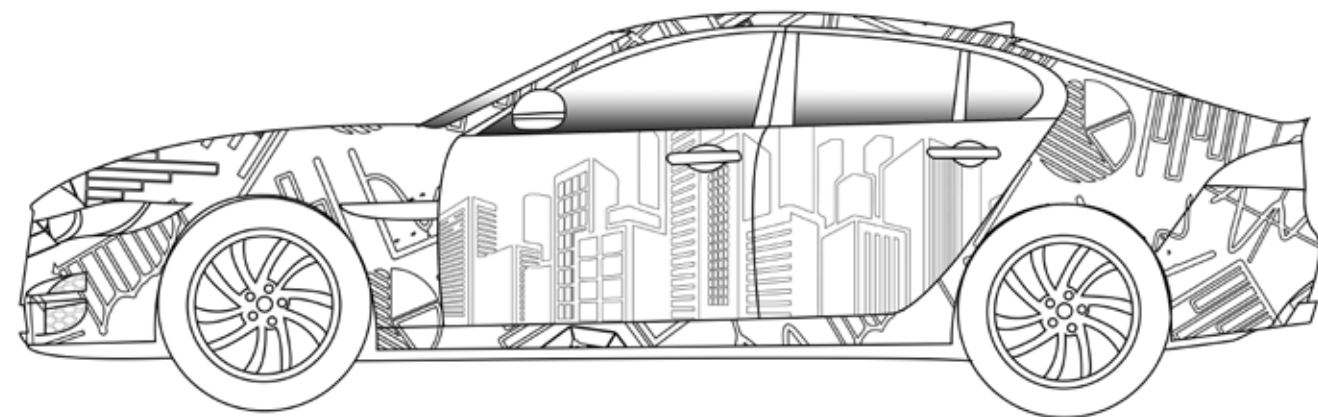

EVOQUE CONVERTIBLE

Featuring an Ebony fabric Z-folding Convertible Roof System, Range Rover Evoque Convertible takes the vehicle's inherent capability and superb looks to another level. Its distinctive lines exude confidence, individuality and poise while the spacious interior enables four passengers to travel in open-air comfort.

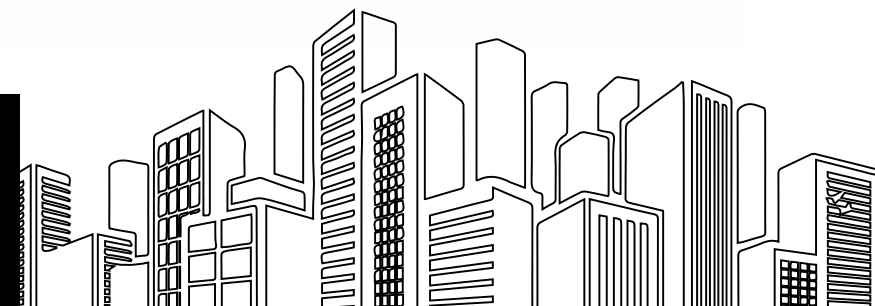

RANGE ROVER SPORT

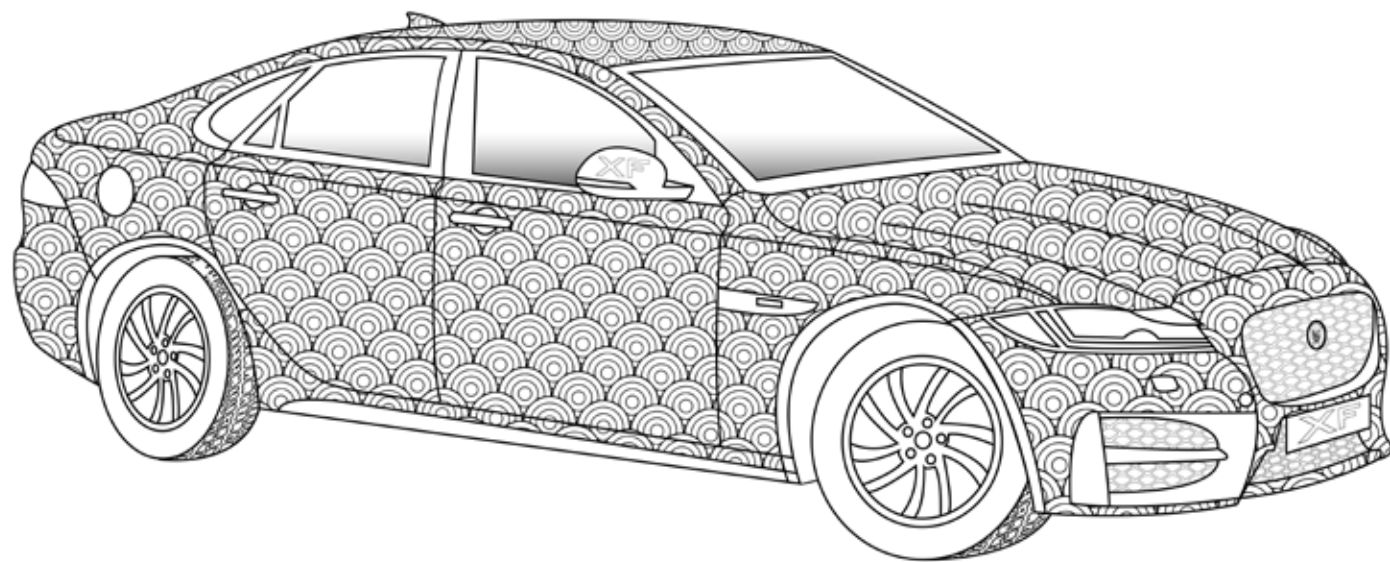

Agile, dynamic and extraordinarily capable, Range Rover Sport has a choice of powerful engines that can deliver a top speed of up to 155mph. Its effortless handling and unrivalled all-terrain performance ensure this is a vehicle that rises to the challenge of every journey, on or off-road.

XE S

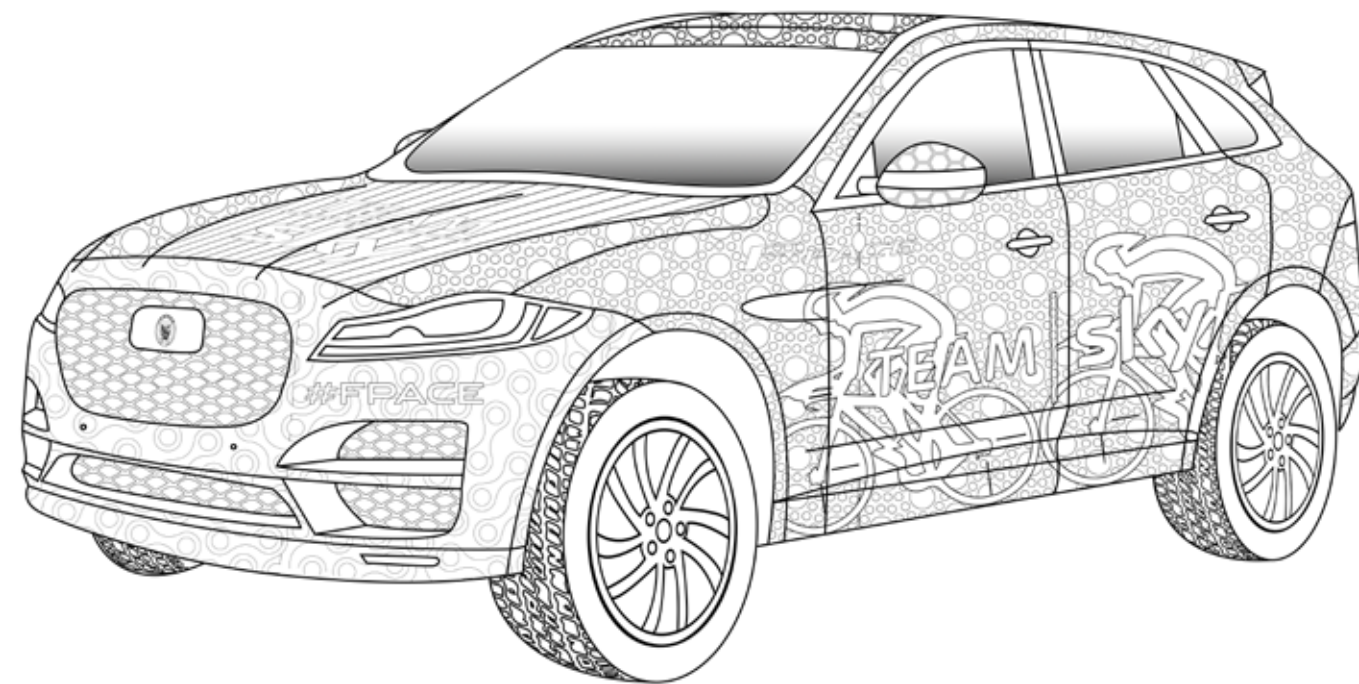

The XE S Petrol engine is the same beating heart available in F-TYPE. A twin vortex supercharger is mounted for compact dimensions – sitting beneath the lithe XE bonnet lines. Delivering a phenomenal 340PS it powers XE S from 0-60mph in just 4.9 seconds.

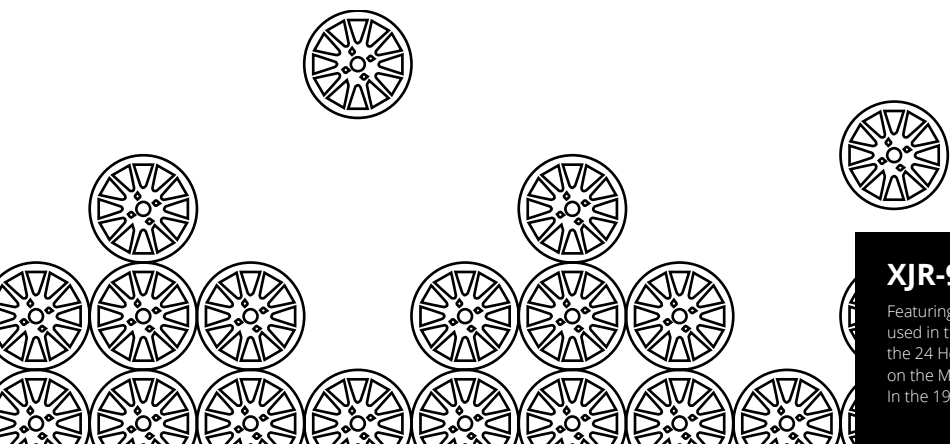

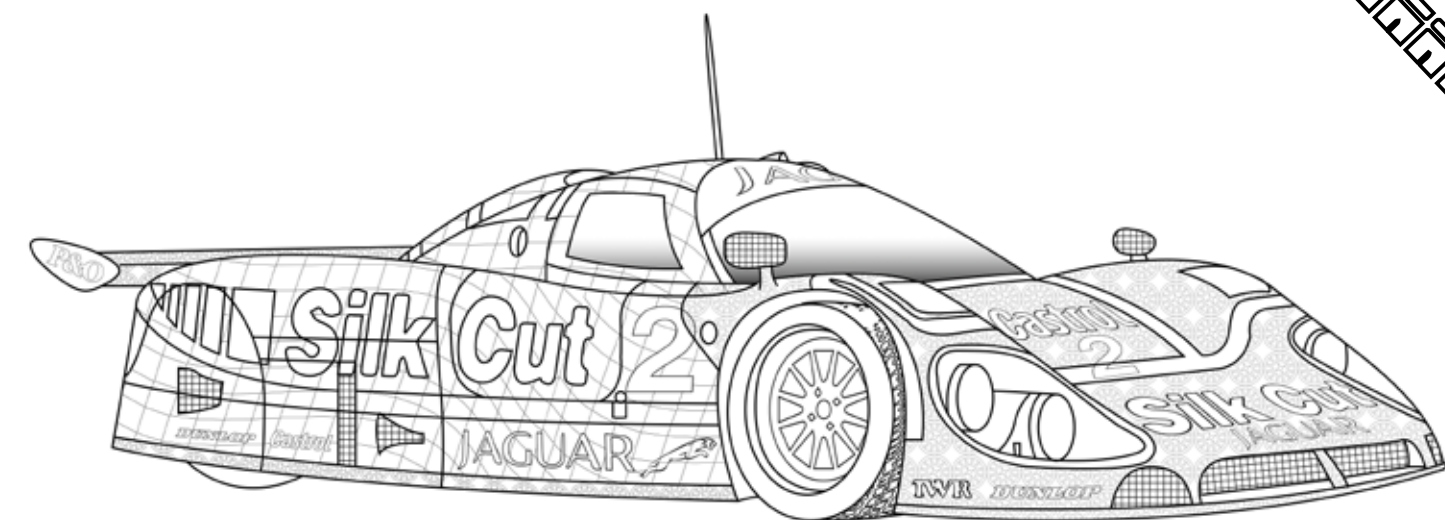

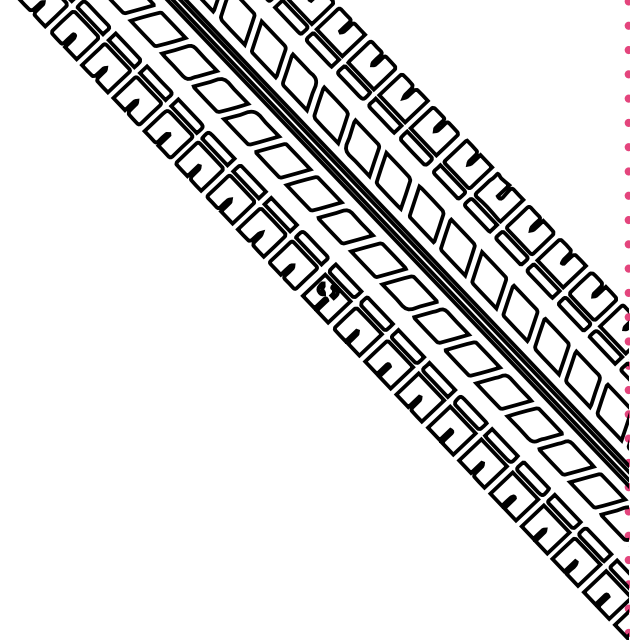

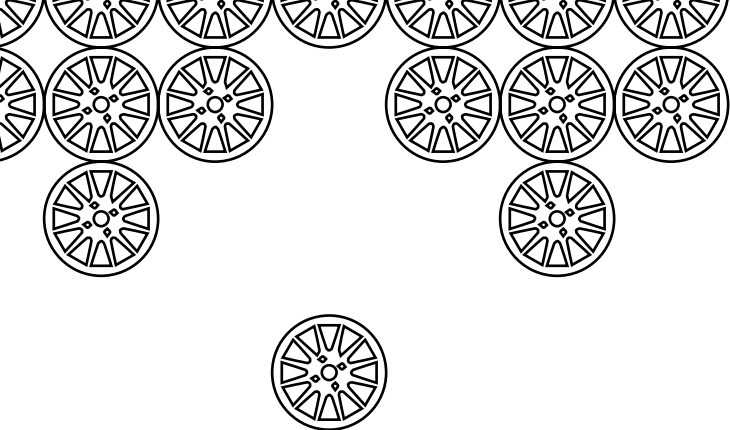

XF S

XF S is available with the powerful 3.0 litre V6 380PS supercharged petrol engine also found in the F-TYPE-S. It generates thrilling performance with optimum efficiency and refinement. The unit's 450Nm of torque delivers 0-60mph acceleration in as low as 5.0 seconds and a top speed of 155mph.

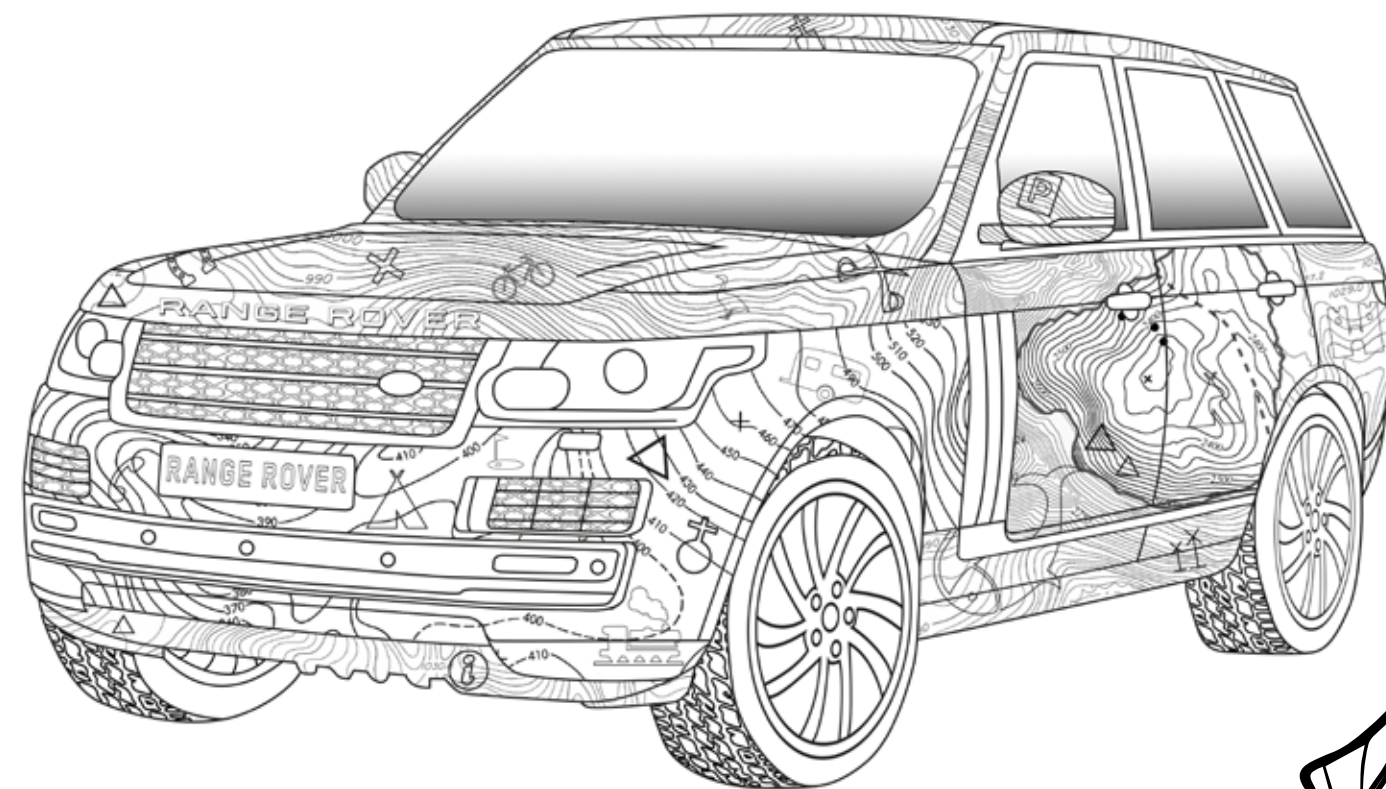

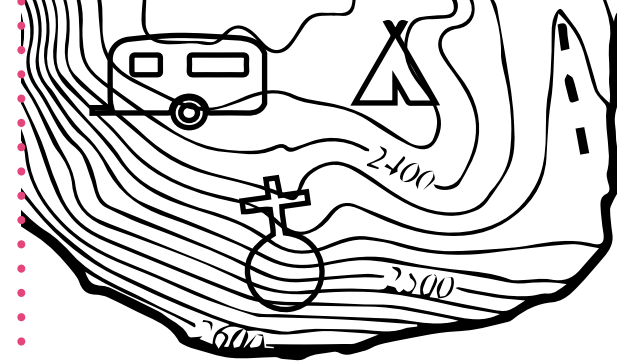

F-PACE R-SPORT

Combining powerful looks and superb driving dynamics, Jaguar's sporting lineage is unmistakable in F-PACE R-SPORT. The form-fitting sports seats feature contrast stitching in a range of upholstery for a performance car look. Metal R-SPORT treadplates and the R-SPORT steering wheel adds to the dynamic style.

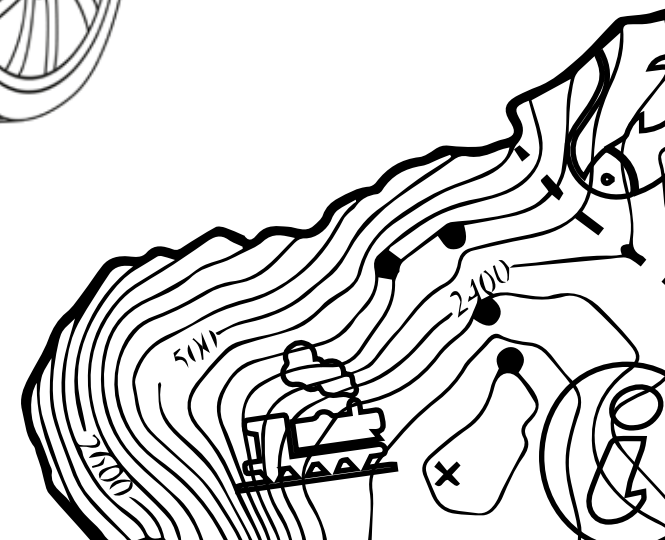

XJR-9LM

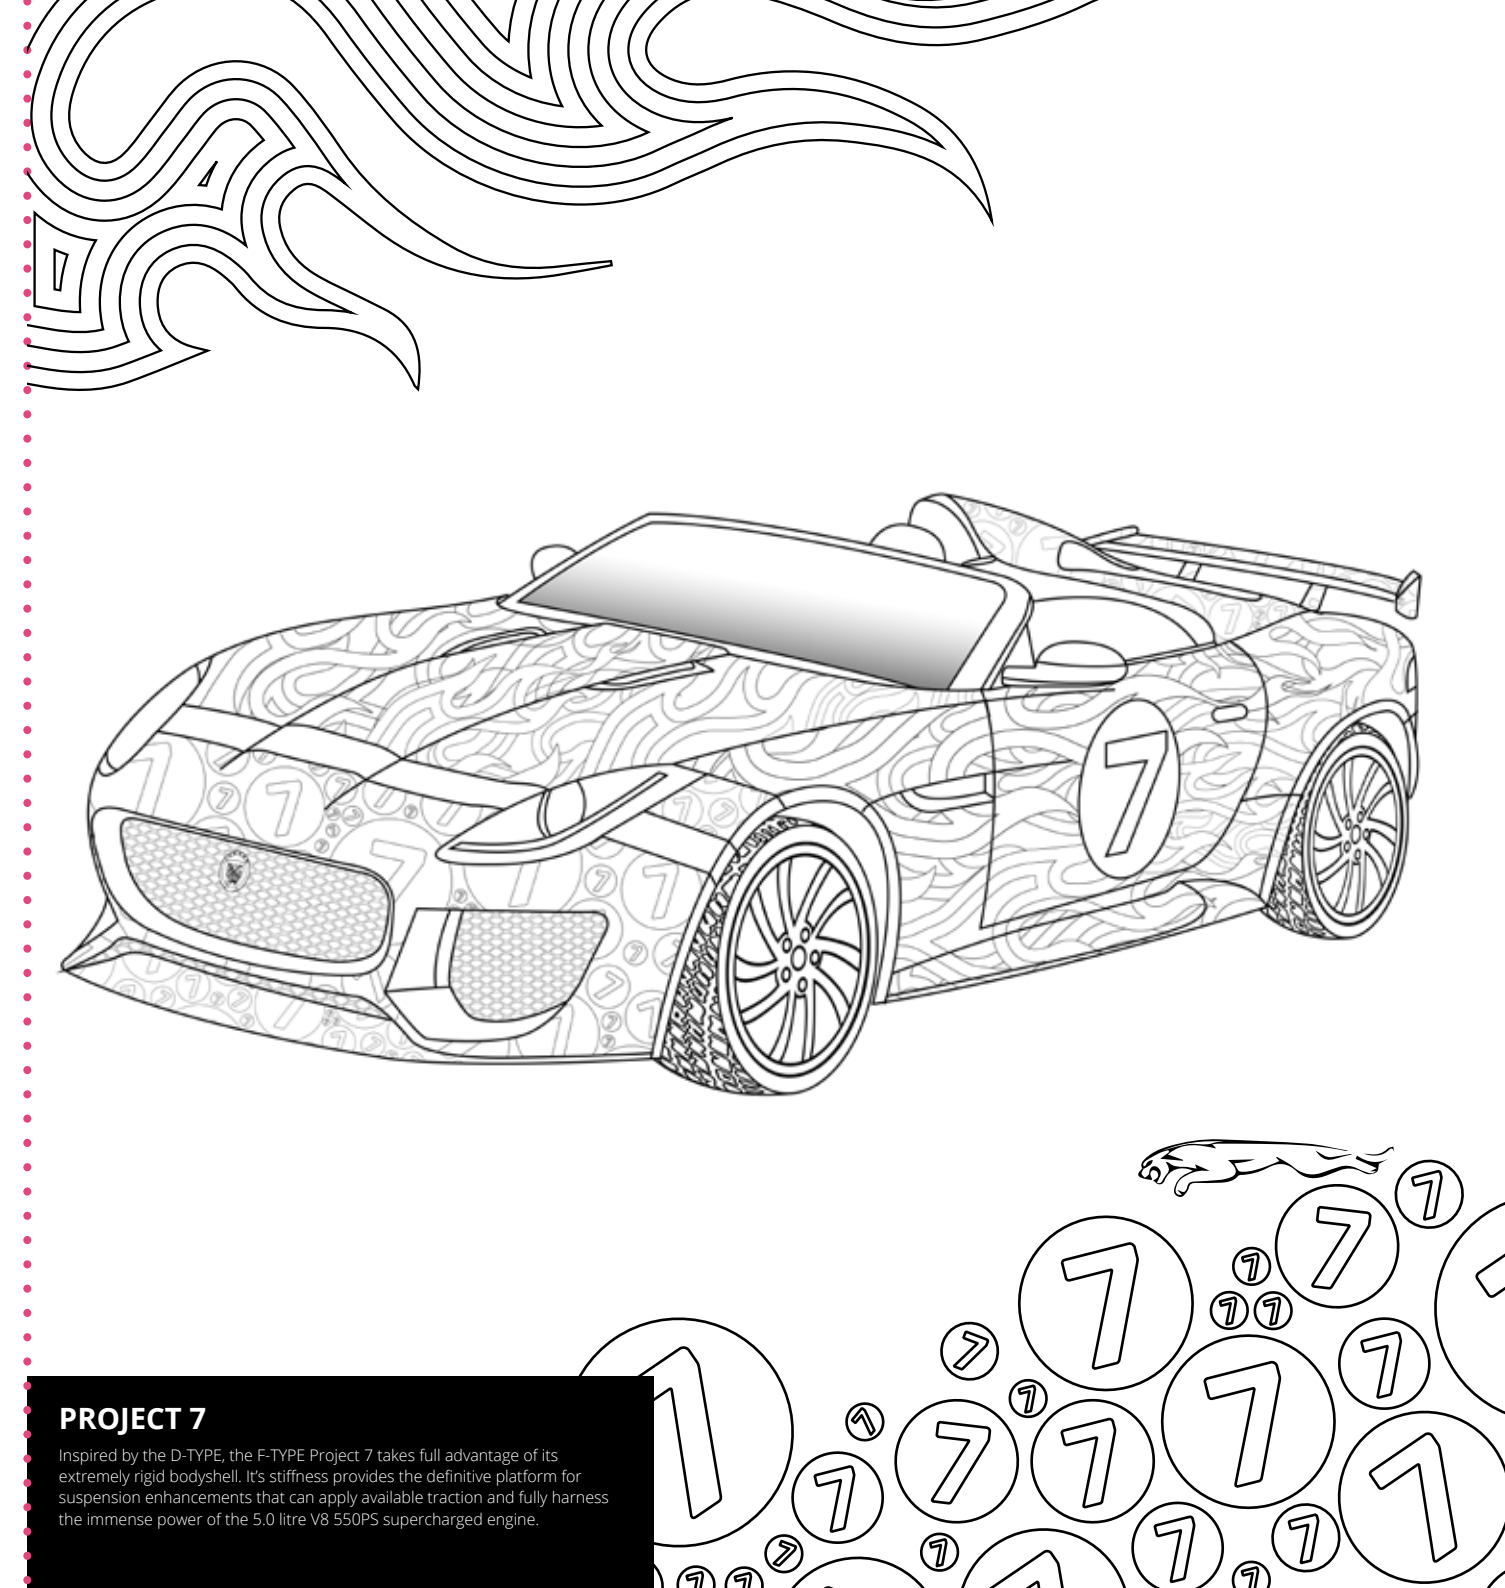

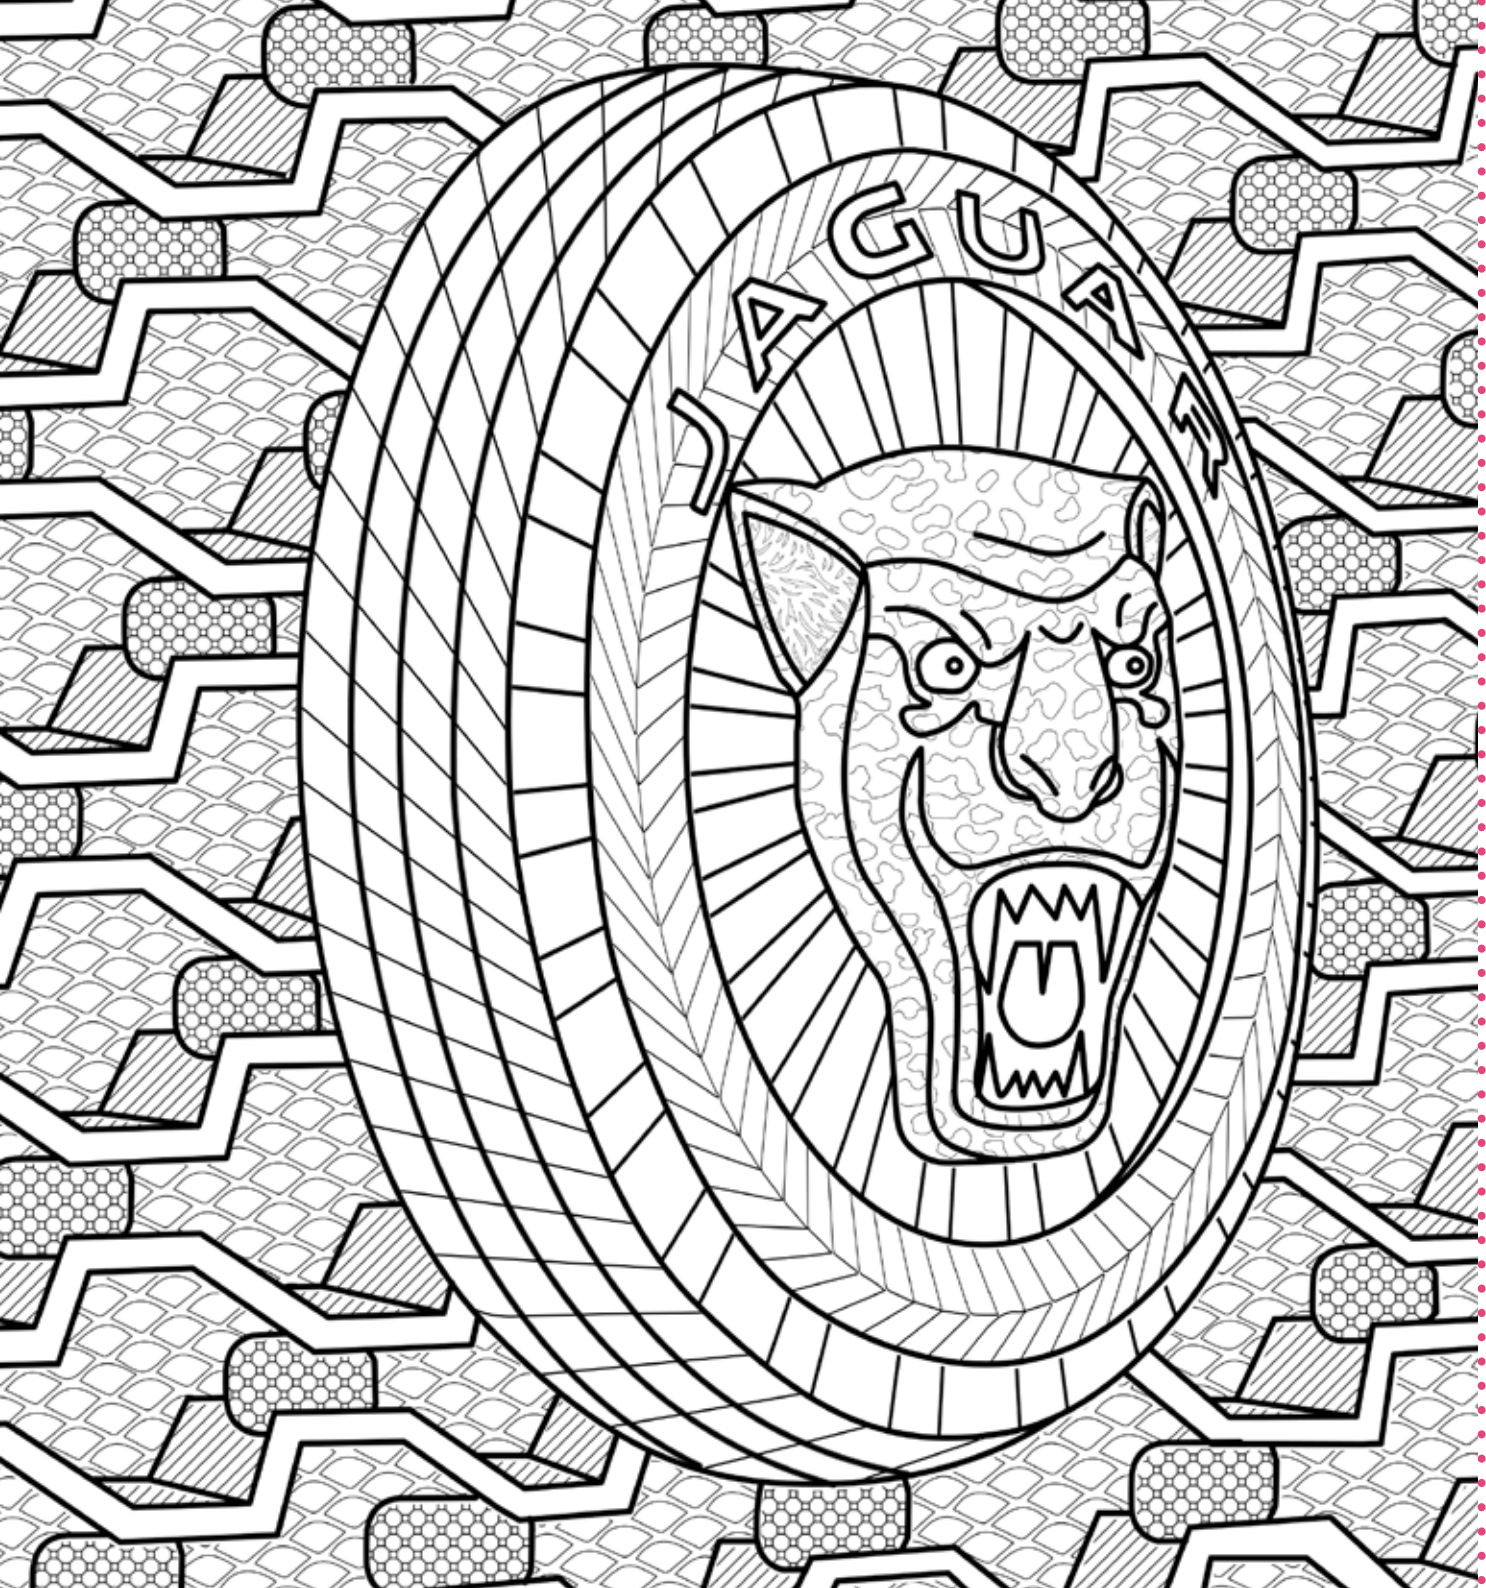

Featuring a Jaguar 7.0 litre V12 based on the production 5.3 litre engine as used in the Jaguar XJS road car. The XJR-9LM, was developed specifically for the 24 Hours of Le Mans where the requirement for high straight line speeds on the Mulsanne Straight necessitated a low-drag aerodynamic package. In the 1988 WSP Championship it took six victories including Le Mans.

RANGE ROVER VOGUE

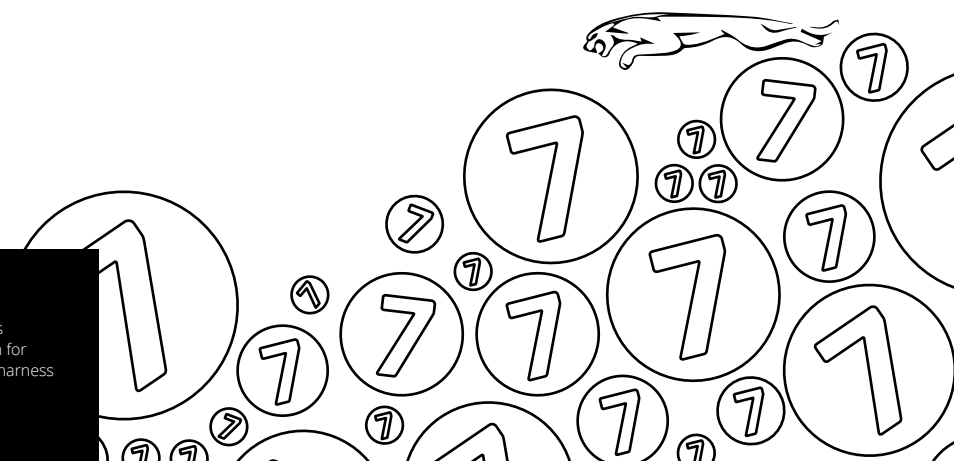

With its three classic lines of the lower accent graphic, floating roofline and continuous waistline, Range Rover is unmistakable. The distinctive silhouette is gently tapered and curved, while the use of near-flush glazing and Gloss Black pillars accentuates the roof, enhancing its streamlined and elegant form.

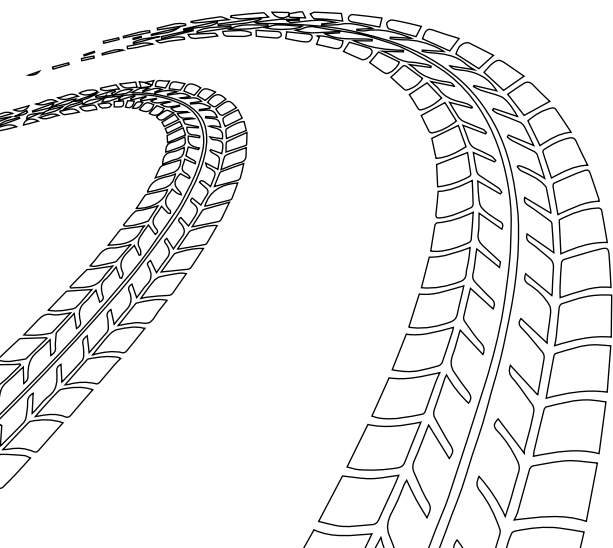

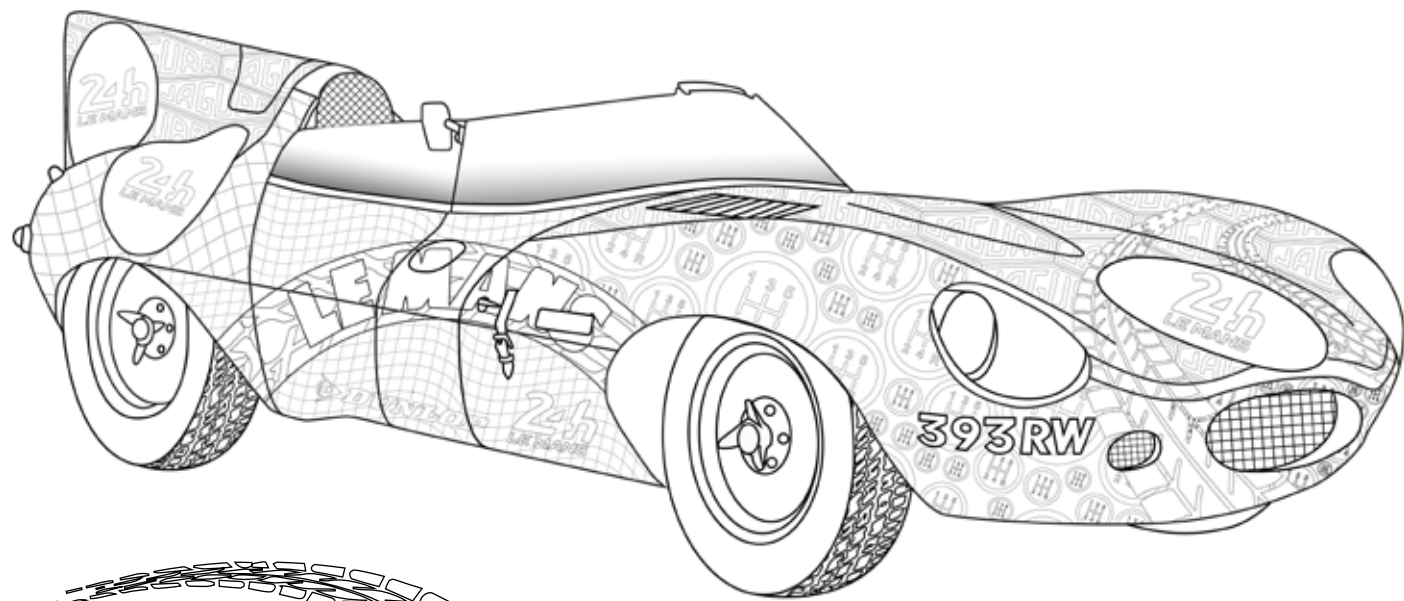

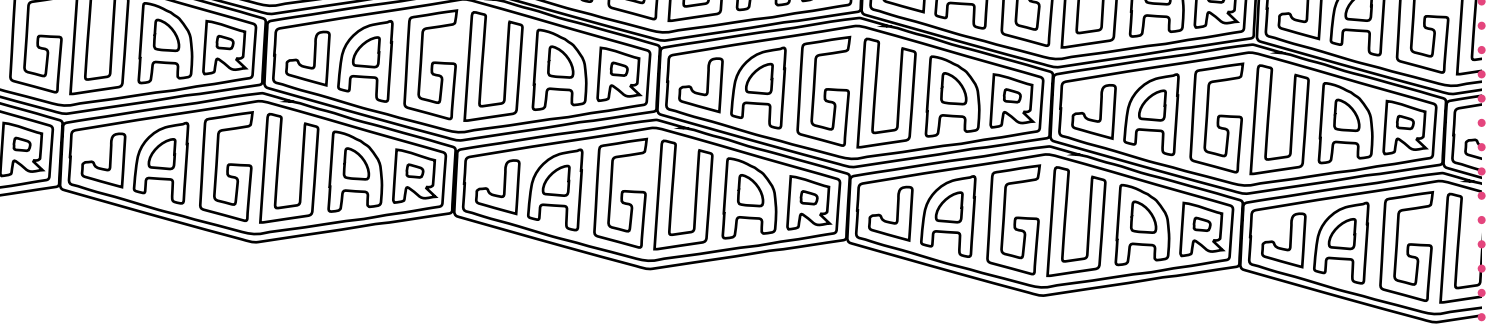

PROJECT 7

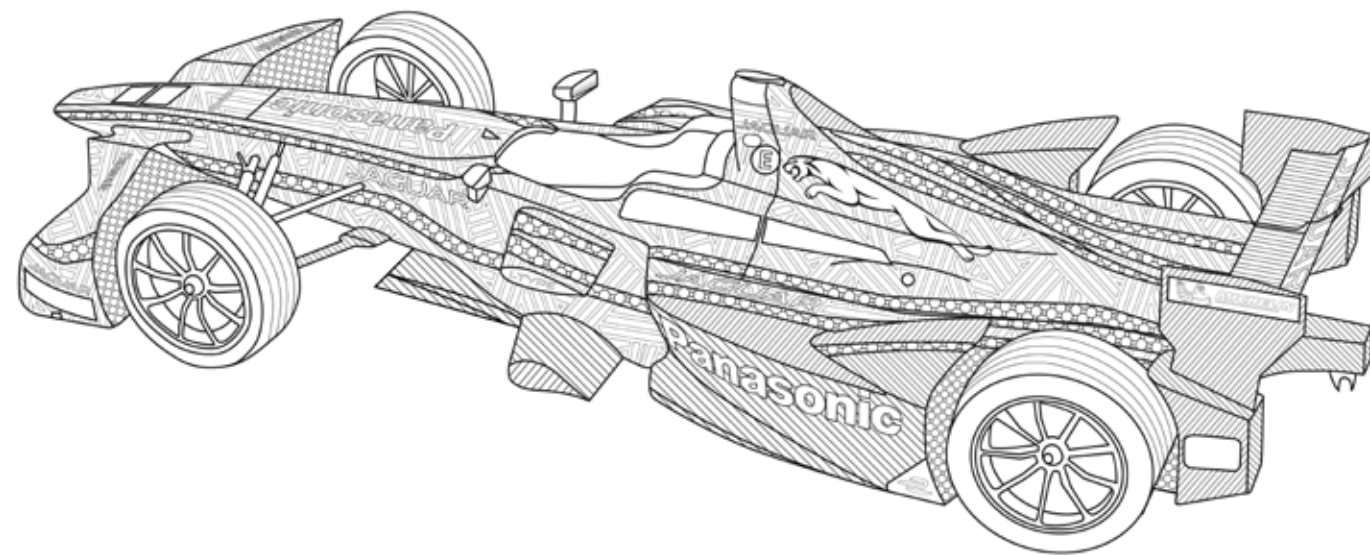

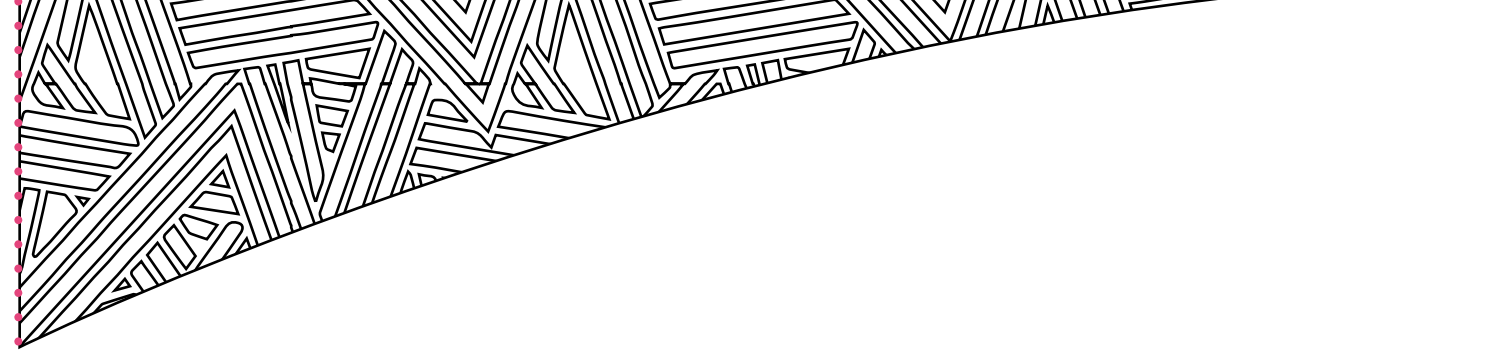

Inspired by the D-TYPE, the F-TYPE Project 7 takes full advantage of its extremely rigid bodyshell. It's stiffness provides the definitive platform for suspension enhancements that can apply available traction and fully harness the immense power of the 5.0 litre V8 550PS supercharged engine.

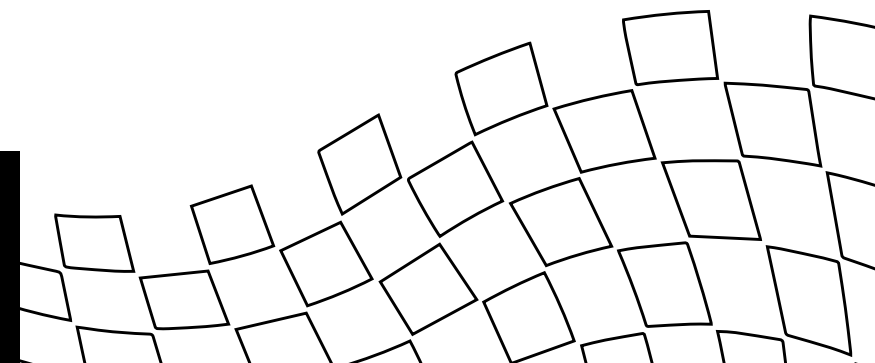

D-TYPE

The Jaguar D-TYPE is a sports racing car that was produced by Jaguar Cars Ltd. between 1954 and 1957. Although it shares many of its mechanical components with the C-TYPE, including the basic straight-6 XK engine design, the structure of the car was radically different.

I-TYPE

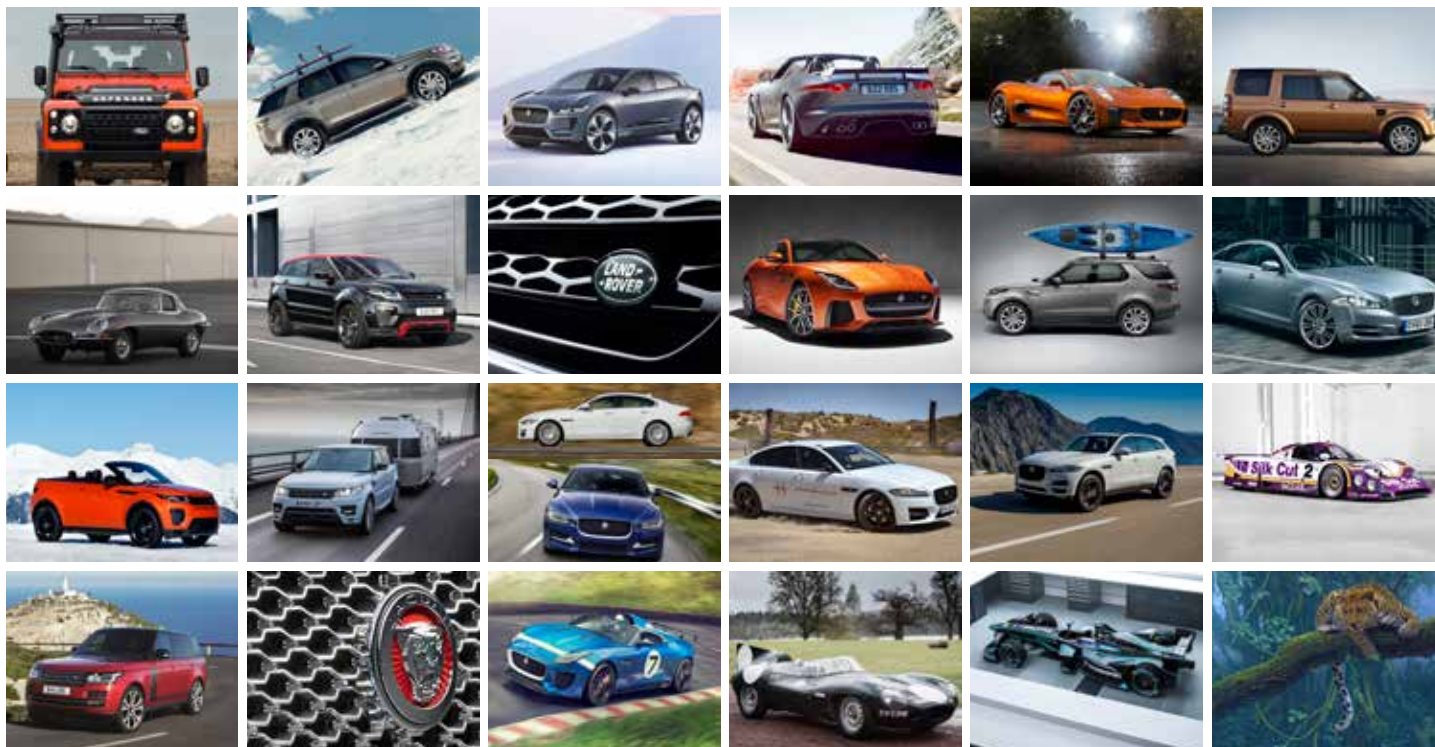

The I-TYPE is a powerful yet agile all-electric race car, capable of accelerating from 0-60mph (100 km/h) in 2.9 seconds. The I-TYPE is built to withstand the twisting bends and unpredictable surfaces of the Formula E city centre street circuits, at speeds of up to 140mph (225 km/h).

JAGUAR (PANTHERA ONCA)

The jaguar is a big cat, a feline in the *Panthera* genus, and is the only extant *Panthera* species native to the Americas. The jaguar is the third-largest feline after the tiger and the lion, and the largest in the Americas.
